## EARLY SPRING FIRES ON ISLAND DESTROY HOUSES AND BARN

**Courtenay Was Ringed About; Twenty Houses In  
Deserted Camp of Canadian Collieries Destroyed;  
Three Families Lost Houses and Farm Buildings;  
No Immediate Danger Now.**

Special to The Times.

Courtenay, B.C., April 16.—Fanned by a strong southeast wind, fires in slush in this district got out of hand yesterday afternoon. The most dangerous sprang up on the Bevan-Courtenay road and destroyed twenty houses in the deserted No. 8 Camp of the Canadian Collieries Company, but only one of these was or ever had been inhabited.

Three families lost their houses and barns and possessions in a fire which drove to the north between the sea and the Mottishaw and Morrison mill at Sandwick. The unfortunates were F. Paquette, J. Mathers and E. Sackville. Both of the former were farming under the Land Settlement Board and their places went up about nine o'clock last night. It was only by a desperate and concerted effort that Gwilt's mill was saved, as fire threatened it all day. A desperate fight also saved Mottishaw and Morrison's mill at Sandwick.

Courtenay was ringed in by fires last night and at headquarters and Merville most of the settlers had packed and were ready for any eventualities. Settlers had set fires all through the district and the entire absence of rain and strong wind combined to make them dangerous. Only concerted community effort saved many other isolated places. The Courtenay Fire Brigade was out all day and did excellent service. The wind died down at last, but there is now no immediate danger, but there will be considerable anxiety until rain comes.

## POLICE AWAKENED GIRL SLEEP-WALKER IN HOLLYWOOD

Los Angeles, April 16.—Miss Josephine Chisney, fourteen, was found walking in her sleep past the Hollywood police station by Police Lieutenant A. G. Graham, Sgt. S. F. Stevens and Desk Sergeant D. Gilpin. She was taken to the station and gently awakened. The girl had let herself out of the front door and started a trip about town clad in a bathrobe and flapping carpet slippers. She had been asleep for some time before being stopped.

## RUM SCHOONER FOUND DESERTED

**Bootlegging Mystery in Eastern U.S. Coastal Waters**

New York, April 16.—A mystery of the sea involving a possible battle between rum runners and pirates developed yesterday when a coast guard cutter Manhattan found the abandoned two-master rum schooner Patricia M. Behan, with sails set and anchor dragging, at the entrance to Great South Bay. The deck was strewn with empty cartridges and there were signs of a struggle, according to Captain M. Ryan of the Manhattan. The schooner was formerly the Edith Helen Bush.

**Crew of Ten.**  
The schooner probably carried a crew of ten men and sufficient food for ten days. While no liquor was found, entries on the log and on a page torn from a notebook evidently owned by the unknown captain indicated that the craft had been engaged in the rum running business. Captain Ryan said that if the schooner's captain was British, he would never have left his vessel, for it is a British tradition of the sea to remain even if all hands desert.

**May Have Been Killed.**  
One theory is that the craft fell in with rum pirates, known to be active along the coast, and that the crew was slain in battle.

On a table in the captain's cabin was found a box containing about a thousand cartridges, and indications that some person or persons had helped themselves hurriedly to them. No weapons were found on board.

In the crew's quarters in the forecastle were found clothes which appear to indicate that the schooner's complement of men was about ten, all of whom, including the master, disappeared without leaving a trace. Captain Ryan of the Manhattan was proceeding slowly into port shortly before daybreak when the lookout aroused him with the cry that a suspicious looking vessel was seen off the bow. In the half light of dawn he made a hasty survey of the schooner.

**Sale of Whisky.**  
There was a memorandum on the notebook leaf relating to the sale of 2,918 cases of whisky to a mysterious "Ralph," although there was nothing to show whether this was the name of the boat or a man. There also were scribbled details of the mysterious actions, the last entry being on Tuesday, April 10.

Captain Ryan ordered several of his crew aboard the mysterious schooner and had her taken to the barge off the Battery.

## RECIPROCITY OR VERY HIGH TARIFF, SAY THE TURKS

Constantinople, April 16.—The Council of Commissioners has decided to apply a twenty-fold protective tariff against imports from countries which refuse reciprocity to Turkish exports of a like nature.

## DECLARES IT EFFORT TO EVADE THE ISSUE

**Presbyterian Union Leader  
Condemns Federated  
Church Plan**

Montreal, April 16.—The scheme is ably wrought out, but it is simply a desperate effort to evade an issue. It is born of fear and no child of that parentage can live," says Rev. Dr. G. C. Pidgeon, convener of the Presbyterian Union of Canada, in a statement dealing with the plan for a federation of the churches suggested by Rev. D. R. Drummond, of Hamilton, in place of church union.

## FARM STRIKE MAY END IN A FIZZLE

**Industrial Agreements in Norfolk, Eng., Reported**

London, April 16.—(Canadian Press Cable).—Every bench of magistrates in Norfolk this week will be hearing summonses against striking farm hands for intimidation and hindrance. The strikers, including several women, are alleged to have inflicted bodily harm on non-union workers.

After the abortive conferences of last week, a feeling is growing that the strike may fizzle out, for between the strikers and the farmers in certain districts there is a tendency to make individual agreements. Many workers have already returned under police protection, and with further assistance from volunteers the farmers are prepared to await the gradual return of regular help.

## CHANGED CHURCH TEACHING URGED

**Rev. Dr. Grant, New York,  
Would Abandon New York  
of Responsibility**

New York, April 16.—Elimination from the dogma of the Christian church of fixation of the responsibility for the crucifixion of Jesus Christ was advocated by the Rev. Dr. Percy Stickney Grant, preaching in the Church of the Ascension here on "Should Christians and Jews Consolidate Religiously?"

"There is no reason why Christians should make a fuss about this occurrence in Jerusalem centuries ago," he said. "If an organized attempt is made there is no reason why the elimination of this responsibility could not be brought about."

## TIKHON TRIAL IN MOSCOW SET FOR APRIL 23

Moscow, April 16.—The trial of Most Rev. Dr. Tikhon, former Patriarch of All Russia, charged with complicity in the execution of Archbishop Zepiak, Mgr. Butchkevitch and other Catholic prelates were recently convicted, has been definitely fixed to begin on April 23. Commissar of Justice Kireki has informed the Associated Press.

## COL. J. W. BOYLE DIED IN EUROPE

**Romantic Career of Mining  
Operator in the Balkans**

**Frequently in Victoria When  
His Corps Trained Here**

Toronto, April 16.—According to a special dispatch to The Mail and Empire from its Woodstock, Ont., correspondent, news has been received there by cable of the death in London, Eng., of Colonel Joseph Whiteside Boyle, Klondyke gold miner, adventurer, aviator and an international figure of repute in Europe. Death came suddenly as the result of a heart attack, although in a letter to his sister, Mrs. A. P. Laperriere, a month ago, he said he was feeling sick but hoped to be able to come home to Woodstock this summer.

The late Colonel Boyle was born in Toronto on November 4, 1862, but went to Woodstock with his parents when four and a half years old. His father, the late Charles Boyle, was a noted racehorse owner.

At the age of eighteen years Boyle ran away on a merchantman and went around the world. In 1898 he went to the Klondyke. In the early days of the gold rush. He later went to Ottawa to secure a large concession of land which he worked himself until he struck a rich vein. He secured financial assistance and the Canadian Klondyke Company was formed to work his mine.

When the war broke out, he was President of the Canadian Klondyke Mining Company, but he proceeded at once to put his affairs into shape so that he could go overseas.

In 1915 he enlisted and equipped a machine gun unit, known as Boyle's Machine Gun Section of fifty men, and the spirit of the men was transferred from the fact that all but three of them were killed in action. His determination to do all in his power for the cause of the Allies was shown by his subsequent donation of eleven machine guns and three aeroplanes.

He also made large gifts to patriotic societies and charitable organizations. His purse was always open when anything was to be done for the help of the soldiers, and more especially those from the Yukon.

**A Romantic Career.**  
In 1918 he was in London on business and while there was commissioned by the War Office to go to Russia and reorganize the transportation system of that country. He was there during the revolution and for about a year nothing was heard of him. He next turned up in Rumania, where he became prominent in his efforts to bring the rich oil wells in the face of the advancing Austrian army, so they would not fall into enemy hands. He had many remarkable experiences there. On one occasion he saved fifteen Rumanian deputies from death at the hands of the Bolsheviks at the risk of his own life. It was he who, despite the great danger, saved the lives of the great.

## ANNOUNCES NEW CURE FOR DIABETES

**Dr. J. B. Collip, Alberta University,  
Says It Will Sup-  
plant Insulin**

**Name Given New Substance  
Is Glucokin**

Winnipeg, April 16.—The Winnipeg Free Press publishes the following from its Edmonton correspondent this afternoon: "That a cure for diabetes lies latent in green onion tops, onion roots, barley roots, sprouted grain, green wheat leaves, bean tops, lettuce and various forms of yeast has been demonstrated through a long series of experiments conducted by Dr. James B. Collip, head of the department of Bio-Chemistry at the University of Alberta, and co-discoverer of the insulin treatment of diabetes with Dr. F. G. Banting, Dr. J. J. R. McLeod and Dr. C. H. Best at the University of Toronto more than a year ago. The new discovery, it is stated, will supplant insulin in the future. It means the final victory over diabetes."

**New Hormone.**  
"In his experiments Dr. Collip has discovered in these forms of plant life a new hormone that is, the extract which has the effect of counteracting the condition known as diabetes. This hormone acts in a manner somewhat similar to the now familiar insulin although it is obtained from an entirely different source. Dr. Collip has given a name to this new substance which promises to be even more useful than insulin. He calls it glucokin."

## "FLYING CIRCUS" WAS BROKEN UP

**Only One French Plane Flew  
From Nice to Milan**

**Two Machines Wrecked;  
World Flight Was Planned**

Nice, April 16.—Three pilots, Captain Madone, M. De Gaillard and M. Picard, took off in their machines early Sunday morning for Milan, the first jump in the round-the-world flight of the "Flying Circus," organized by Captain Bapt.

Madone and De Gaillard, however, soon developed motor trouble and had to turn back. They made bad landings and their aeroplanes were wrecked.

Picard, who was accompanied by three Italian machines, continued the flight to Milan.

The intention was for Captain Bapt and Captain L'Homme, the other two fliers in the contest, to fly direct from Paris later and meet at Milan those leaving to-day.

The "Bapt Flying Circus" originally intended to start from Nice on the round-the-world trip Easter Sunday. The five planes were to fly eastward, crossing Asia by way of India to Japan and thence to Nome, Alaska, then down the Pacific Coast to North and South America to Chile and then over the Andes to Argentina.

The schedule called for the across-the-Atlantic trip to be started from Pernambuco, Brazil, and end at Dakar, French West Africa, whence the fliers were to proceed northward to the starting point at Nice.

## TARIFF REDUCTION IS RECOMMENDATION

**Programme of the Canadian  
Council of Agriculture**

**British Preference and Reciprocity Wanted**

Ottawa, April 16.—Submitting the programme of the Canadian Council of Agriculture before the House Committee on Agricultural Conditions, John W. Ward, secretary of the Council, this morning said it included "a substantial all round reduction of the customs tariff on the necessities of life; an increase in the British preference; reciprocity with the United States along the lines of the 1911 agreement; free importation of agricultural implements, vehicles, fertilizers, lumber, cement, illuminating fuel and lubricating oils and of all raw materials and all machinery used in the manufacture of these things."

Mr. Ward believed by reducing his own tariff, cost of living would be reduced in Canada and this would benefit all classes.

"I am not suggesting that you wipe out the tariff altogether," said Mr. Ward, "but we believe there should be substantial progress downward. The tariff increases the cost of production and farmers to-day are absolutely unable to carry any extra burdens. The tariff is also keeping immigrants out of Canada."

**Cost of Implements.**  
The increased cost to Canadian farmers of agricultural implements in one year because of the tariff Mr. Ward estimated to be \$9,974,000. This was 5.3 times as much as Canada received in revenue from agricultural implements duties.

John F. Reid, former M. P. for Mackenzie, Sask., dealt with farming conditions in Western Canada. With his sons he farmed 1,120 acres in Saskatchewan. Mr. Reid, comparing United States and Canadian prices of certain farm implements, said a twelve-inch gang plough on which the duty was 14 per cent, cost \$88 in Canada.

## F. W. HOFENZOLLERN REPORTED INSANE

**Ex-Crown Prince of Germany  
Declared Growing Worse**

London, April 16.—Friedrich Wilhelm, Hohenzollern, former Crown Prince of Germany, is suffering from a progressive form of insanity, according to a Wieringen dispatch, which quotes as authority two noted alienists of Berlin.

"He has turned to religion for comfort in his solitude," reads the dispatch. "His exhausted servants are forced to listen for hours to revival services conducted by him on a wheezy organ, and he is subject to alternate fits of garrulity and taciturnity."

## IN TURKEY ONLY NATIONALISTS IN ELECTION FIELD

Constantinople, April 16.—The coming elections seem likely to result in a complete win for the Nationalist Government candidates, as not a single opposition candidate has yet entered the lists.

## STANFORD MUSEUM ROBBED OF JEWELRY AND ANCIENT COINS

San Jose, Calif., April 16.—Jewelry, ancient coins and relics valued close to \$100,000, according to first estimates, were stolen from the Stanford University Memorial Museum Saturday night. The theft was discovered when the museum was opened at 10 o'clock Sunday morning.

## POINCARÉ STATES GERMANY MUST PAY

**French Forces Will Not Be  
Withdrawn Without  
Settlement**

**Nine More Ruhr Coal Mines  
Taken Over**

Paris, April 16.—Re-affirming France's intention to withdraw from the newly occupied territory only as Germany makes her reparations payments, Premier Poincaré, in a speech in Dunkirk yesterday, asserted that three months in the Ruhr had convinced France of Germany's ability to meet her coal deliveries.

The address, delivered at the dedication of a monument to Dunkirk's 1,500 war dead, contained a vigorous renewal of France's determination to "carry on" to win "the peace" as she had bent every effort to win the war.

Three months in the Ruhr, the Premier said, had convinced France that Germany could have made the coal deliveries required of her, for it was evident that the Reich was able to get the Ruhr mines working.

The occupation had also brought to light, the Premier asserted, "the military organizations, which the Reich concealed, as in Upper Silesia, under the harmless name of Security Police."

**German Comments.**  
Berlin, April 16.—Premier Poincaré's remarks at Dunkirk were interpreted primarily as a declaration of the Berlin newspapers, declared, yet they can not understand why such a new stimulant was regarded as necessary in view of the fact that Louis Loucheur was reported to have found British sentiment on the Ruhr question swinging toward France.

If, however, the French Premier's speech was intended to furnish a cue for the German Government and the Reichstag in this week's debate on the foreign policy, says The Local Anzeiger, "then the reply which is to be immediately given will spell a new disappointment for him." The newspaper adds that Germany is determined and is in a position to continue her passive resistance to the Ruhr occupation for a long time to come, if necessary.

**Mines Taken Over.**  
Düsseldorf, April 16.—Nine additional coal mines in the Ruhr have been seized by the French and the Belgians, it was announced to-day, making a total of thirty-one mines and coke plants now in the hands of the occupation forces.

The French found nine seized there were about 160,000 tons of fuel, chiefly coke. All this was confiscated.

**Shipments.**  
The French and Belgians, it is announced, will begin shipping to-day an average of 10,000 tons of coal (Concluded on page 2.)

## MURDERS IN INDIA AND ABDUCTION

**British Officer's Wife Killed;  
Daughter Carried Away**

**Two British Officers Recently  
Were Shot**

Rawalpindi, British India, April 16.—Awakened at night by the howling of his dogs, Major Ellis, temporary commander of Kohat, a town in the Punjab, found his wife dead with her throat cut, while his fifteen-year-old daughter had disappeared. The girl is believed to have been abducted by Afridi Raiders after they had committed the murder. Troops have scoured the countryside but in vain.

Two British officers, Major Anderson and Major Orr, were shot dead a few days ago in the same neighborhood by unknown assailants.

## RESERVISTS IN U.S. RETURN TO GERMANY

**American Legion Leader Says  
Hundreds Are Going**

**War Against French and Re-  
newed Prussianism  
Discussed**

Bloomington, Ills., April 16.—Hundreds of German reservists are returning to Germany from the United States for what Garland W. Powell, National Director of Americanism of the American Legion, declared in an address to the German-American League in a final stroke for restoration of the monarchy and Prussianism.

The speaker warned that pro-German propaganda in the United States is being directed from Berlin.

## PREPARE REPORT FOR THE COMMONS; COLONEL RALSTON

An interim report is being put in shape by the Federal Royal Commission which took evidence throughout Canada on pensions and other problems of ex-service men. It is hoped this will be presented to Parliament before the present session ends. It is stated it will be impossible to have the full report ready before prorogation. Col. Ralston is chairman of the commission.

## DONAR LAW NOT RESIGNING OFFICE

**So Says Official Statement  
Issued in London**

**But Observers Say His Health  
Will Decide Matter**

London, April 16.—"The Prime Minister has no intention whatever of resigning," said a statement issued last night from No. 10 Downing Street, the official residence of Mr. Bonar Law.

This constituted the Government's reply to statements in several newspapers, which the Government could not allow to pass unchallenged. This official denial, however, it is generally agreed in political circles, does not affect the situation as indicated in dispatches last week, namely, that Mr. Bonar Law's retention of office depends on his health. Undoubtedly the Premier has no intention of relinquishing hold if his health permits. When he assumed the premiership Mr. Bonar Law frankly said his retention of the post would depend entirely on his health, and official denials such as that just issued, it is believed, will not influence public opinion, which has been almost universal since last week's happening in Parliament that if the Government is to survive it must be greatly strengthened and that unless the Premier's physical condition rapidly improves, he can not wield the necessary driving power to carry on the administration. The Premier still has three months before him in which he may reconstruct his Ministry with the necessity of new Ministers having to run the gauntlet of by-elections, and this is an important factor, considering the general dissatisfaction caused by the Government's complete inactivity in connection with the Ruhr trouble and home problems, like unemployment, housing and labor disputes.

## BUDGET PROPOSALS

The fate of the Ministry probably largely depends on the nature of Stanley Baldwin's budget statement to-day. A popular budget would be a great asset to the Government. Failing that, the Government has a chance of survival is considered to be small, unless a reconstruction could bring back Austen Chamberlain, Lord Curzon, Sir Robert Horne and others of the late Coalition Government.

## TWO MENTIONED

The die-hard section of the Conservatives, which engineered the revolt in the Coalition against Mr. Lloyd George, still is strongly opposed to this solution and should it succeed in preventing it and Mr. Bonar Law should find himself, owing to bad health, compelled to retire, two Ministers are being prominently mentioned as his successors—Lord Curzon and Stanley Baldwin.

Lord Curzon's aloofness and imperious manner are considered as not being calculated to make him a success as Prime Minister and, therefore, the chances are supposed to favor Mr. Baldwin.

Lord Curzon is considered as not being calculated to make him a success as Prime Minister and, therefore, the chances are supposed to favor Mr. Baldwin.

## PREMIER'S HEALTH DECIDING FACTOR

Special to The Times  
London, April 16.—It now appears that Premier Bonar Law's health is a most potential factor in a situation

## CORPORATION TAX IN BRITAIN AND INCOME TAX TO BE REDUCED

**Budget Proposals Laid Before Commons By Chan-  
cellor of the Exchequer; No Reduction in Sugar  
Tax, But Government Hopes Conditions Will Lead  
to Early Change.**

London, April 16.—Right Hon. Stanley Baldwin, Chancellor of the Exchequer, making his budget statement before a crowded chamber in the House of Commons to-day, said the past year's surplus of £101,000,000 had gone to reduction of the national debt. The financial year just closed had become steadily better as it proceeded. Trade at home and abroad had improved and unemployment had diminished considerably.

Mr. Baldwin announced that the corporation tax would be reduced by one-half and the income tax reduced from five shillings to four shillings and sixpence in the pound sterling. There would be no reduction in the sugar tax, the Chancellor declared, but he hoped the condition of the world-markets would permit such a reduction at an early date.

Mr. Baldwin, referring to the debt to the United States, said he hoped shortly to settle the final form of the bonds to be given in replacement of the demand obligations.

Last year's surplus, the Chancellor said, had come about through the best of all possible causes, namely, the reduction of expenditures, including £27,000,000 for the nation's fighting services and £55,500,000 for civil expenses.

Total of £241,000,000.  
The ordinary estimates for 1922-24 were £241,000,000, as compared with £473,000,000 last year. Mr. Baldwin said it was not intended to provide any margin for supplementary estimates.

He estimated the total expenditure for the coming financial year at £161,615,000.

The total revenue for the new year on the basis of the existing taxation was estimated at £852,650,000, leaving a surplus of slightly more than £38,000,000.

A cut was announced in the duty on beer so as to allow a reduction of a penny per pint in the retail price.

## NATIONAL DEBT

The total deadweight debt, which on March 31, 1922, was £7,676,000,000, was given as £7,773,000,000 on March 31 last, but the Chancellor stated that the effective reduction in the debt amounted to £140,000,000.

The only external debts outstanding were those to the United States and Canada. The amount of the outstanding Canadian debt was practically equivalent to the amount of Canadian sterling bonds held by Great Britain and the Chancellor anticipated that these two debts would be set off against one another.

A year ago the external debt stood at £4,999,000,000, and at the end of March last at £7,115,000,000. The apparent increase, however, was more than accounted for by the addition of the three years' interest in arrears on the United States debt.

**Better Trade.**  
Chancellor Baldwin declared that if the people would only unite to take advantage of the better trade that was undoubtedly coming, he could face the future with confidence.

The reductions in taxation would cost £47,000,000 in the full year, Mr. Baldwin declared, adding that he had gone to the utmost limit of his power to reduce the tax without impairing the credit of the nation.

He could not anticipate another good year from the death duties or the income tax. Reduction in taxation was necessary, but he asked if it would help if the taxation had to be reimposed next year.

He was attracted by the possibility of a tax on betting, but proposed that a select committee consider it.

**No Capital Levy.**  
When the Chancellor had concluded he was congratulated by Ramsey MacDonald, leader of the Labour Opposition, who said that although Mr. Baldwin's taxation policy left some regrets, yet it could not be forgotten that on the great fundamental point of the reduction of the debt, the Chancellor had shown a courage and wisdom not displayed by any of his predecessors since the war started. He regretted, however, there had been no attempt by Mr. Baldwin of a levy on capital.

## ASK CHAMBER TO SUPPORT LOGGING ON WATERSHED

Directors Are Dubious, However, of Approval

Messrs. McPhee and Morley sought from the directors of the Chamber of Commerce to-day support of their idea of logging on the Sooke Lake watershed. C. T. Cross remarked that it was all very well to say that the logging would be done scientifically, but it was a dangerous proposition, and extreme caution should be used.

"I think we might very well go on record now as opposed to logging that watershed," said J. L. Beckwith, who was mayor when the contract was inaugurated.

The matter was laid on the table, on motion of J. L. Beckwith and C. P. W. Schwenn.

**Nurses Sales.**  
Layritz Nurseries wrote complaining that the City Nurseries were selling their output at prices with which theirs could not compete. The directors of the Chamber thought it would be a good idea for the City Nurseries to sell their surplus to other nurseries and not to private parties.

**Telephoning Time.**  
Layritz Nurseries wrote complaining that the City Nurseries were selling their output at prices with which theirs could not compete. The directors of the Chamber thought it would be a good idea for the City Nurseries to sell their surplus to other nurseries and not to private parties.

J. L. Beckwith enquired as to exactly what the ladies were asking from the board of directors.

Mrs. Moore replied that what they wanted was a "team captain" with as many workers as possible.

Endorsement was given to the protest of the Sherbrooke Board of Trade against the action of the telephone company in discontinuing the practice of telling the subscribers the correct time. A copy of the resolution will be sent to the telephone company in Victoria, which is reported to have adopted a similar rule.

**To New Board.**  
A communication from the Montreal Board of Trade asked for a list of the subjects the Victoria Chamber of Commerce proposed to bring before the convention in October. The communication was passed to the new board of directors.

It was decided to leave to the president the task of selecting a "team captain" in connection with the Y. W. C. A. drive.

A vote of thanks was tendered the C. P. R. for two handsome pictures presented to the Chamber, to be hung in the auditorium.

At the directors' luncheon of the Chamber of Commerce to-day, Fred Landberg wrote suggesting that a daily musical concert be held in front of the Parliament Buildings or the Empress Hotel. He estimated that

one hundred concerts would cost \$10,000. The city has voted \$2,000 for music, which would leave \$8,000 to be raised. He had no doubt this could be obtained without serious difficulty and he suggested a committee of two from each of the service clubs and other organizations.

The directors gave their approval to the matter being looked into. Mr. Landberg was made chairman of the committee to take it in hand. "If anybody can raise the money he can," said one of the directors.

**Premier C. A. Dunning, of Saskatchewan, and Mrs. Dunning have arrived from Regina at the Empress Hotel.**

He is not on a public visit, but chiefly to holiday with friends. Unless he prolongs his stay here, he will not be able to meet Premier Oliver, who is still warring on the prairies for the equalization of western freight rates, which are now declared to be discriminatory to B. C.

Premier Oliver telegraphed that he is in Medicine Hat to-day and everything is going fine. He will be in Fernie Wednesday morning.

**IMPRESSIVE FUNERAL FOR JOHN S. BARTHOLOMEW**

The remains of John Stuart Bartholomew, the popular young business man whose tragic death occurred on Thursday, were laid at rest in Ross Bay cemetery on Saturday afternoon amid impressive scenes. Rev. Dr. W. G. Wilson, D. D., conducted the services at the Empress Hotel, which were attended by members of the Gyro Club, the young people's societies of the First Presbyterian Church, the Elks Swimming Club and other organizations with which the young man had been associated. The hymns sung were "Nearer My God to Thee" and "Rock of Ages." The casket with its magnificent floral tributes was borne to the flower-laden hearse between a double line of members of the Gyro Club.

The pallbearers were Messrs. Alfred Dowell, Archie McKinnon, William Hudson, Harold A. Kenning, Ross Crane and J. Watson.

Norman D. Lawrence of this city has received news of the death of his mother, Mrs. Catherine Lawrence, who died last night of a single day's illness at her home in Owen Sound on Friday last. The late Mrs. Lawrence while staying in Victoria last Summer made many friends who will be sorry to hear of her death at the age of 77 years.

"The significance of the discovery of glucocin in two-fold, it is scientifically important, for it virtually proves the presence of hormones in all plants which are sugar producers. It is practically important because it indicates that the sources from which extracts containing the same properties as insulin may be obtained."

**Read Paper.**  
"Dr. Collip refuses to talk about his new discovery until it has been officially published in one of the scientific magazines, but at a meeting in New York last month of the Society of Experimental Biology and Medicine a paper prepared by him on this subject was read to the members of the society."

"His students, too, know of the work Dr. Collip has been doing. Their enthusiasm for what he has done has made it impossible for all of them to remain silent until the dry official and scientific announcement is made in an eastern publication."

**Money Costs More.**  
Money cost the Canadian farmer more than his American competitor, who got his wheat at 6 to 6 1/2 per cent, while the Canadian paid from 8 to 10 per cent.

"I haven't lost faith in Canada and there is nothing wrong with Western Canada," Mr. Reid asserted. "It is conditions that are wrong. In my own case, in perhaps three years undemocratic conditions I would see the savings and earnings of a lifetime wiped out. That is true of dozens and dozens of farmers whom I know."

He said he actually cost me \$1.11 1/2 a bushel to produce wheat on a summer fallow."

Mr. Reid said he had checked costs on 100 acres of summer fallow and found this to be the case.

The total cost of production was \$2,008.75 and the yield was eighteen bushels per acre.

**BURIED IN MONTREAL**

Montreal, April 16.—In a coffin one-third larger than the largest stock casket, the late Mrs. Katie Chervitz, known for many years as "The Fat Lady," was buried here Saturday. She was forty years old and weighed over 400 pounds.

## PREPARE TO RAISE SINKING FUND LOAN

To provide for the borrowing of \$1,400,000 to cover old sinking fund shortages a by-law will be passed by the City Council meeting to-night and passed through its preliminary stages.

Bonds to raise this money will be issued by the city immediately after the by-law has been finally passed. The funds must be in the city's hands before the middle of July when old sinking fund shortages mature.

The city expects to get a good price for these bonds, probably the best price received for city debentures for some years. The bond market, city officials explain, is hard at present, and Canadian bonds are at a high level. This condition was caused by the fact that the big national or provincial bond issues have been floated in Canada for some time.

## CHINESE INFORMER DIES BY ACCIDENT, SAYS INQUEST JURY

The death of Ting Fee, or See, one-time police informer in this city, passed to-day into oblivion without any further development. At the post mortem held on the body in Vancouver on Saturday the jury returned a verdict of accidental death by drowning, and the theory was advanced that the man fell off the G. T. P. dock at Burrard Inlet, while on a holiday from Chemainus.

What happened to Ting Fee from the time he left the city here and his body was found floating in Vancouver Harbor is a question that died by accident. The man was last seen in early February. On the body was found with a railway pass from Victoria to Chemainus which had not been used. Friends in this city feared for his safety, and searched far and wide for a trace of their fellow countryman. His friends advertised in the Vancouver Chinese press without avail.

## POINCARÉ STATES GERMANY MUST PAY

and coke daily to France and Belgium. The German mine owners estimate that the shipments will be cut between 4,000 and 5,000 tons. French Cabinet members arrived in the Ruhr to-day — Magnien, Lefranc, and De Lasteyrie, respectively. Ministers of War, Public Works and Finance.

**Declaration by Rosenberg.**  
Berlin, April 16.—Foreign Minister von Rosenberg, addressing the Reichstag, said that the German Government is now in progress on the banks of the Rhine and in the Ruhr. The Ruhr was not one for coal or wood, but a fight which would determine whether the ideals of right and peace would progress or lose ground.

**Coal Tax Penalties.**  
Düsseldorf, April 15.—The new penalties imposed on German coal directors of the Ruhr district because of their failure to pay the forty per cent. coal tax to the French and Belgians threaten to cause serious industrial complications in the occupied territory. The enforcement of these penalties, it is asserted by the Germans, would virtually close all the coal mines in the Ruhr district because of lack of fuel. When the collection of the coal tax was delayed, the Germans were given until May 15 to pay it.

The occupation authorities the tax they were to have paid to Berlin. This far from a mark has been reduced to the hard currency of the day. The German industrialists have indicated that they have no intention of complying with the decree.

**BONAR LAW NOT RESIGNING OFFICE**

(Continued from page 1.)

which may bring about the Government's resignation. Almost voiceless for several weeks as the result of a relaxed throat, Mr. Bonar Law is said to be suffering from neuritis which has developed in the last couple of days. The advice of his doctors caused his sudden resignation from the Lloyd George Government two years ago, and only after the exertion of the utmost pressure and after pleas from his colleagues that he join for even a short time to break the period of complete and prolonged rest prescribed and return to the political arena last year.

Mr. Bonar Law is nearly sixty-five. His six months in the Premiership have been full of discouragements. The split in the Conservative ranks which spelled the doom of the Lloyd

George Government precluded his utilization of such debating power as he possessed by Chamberlain, Birkenhead, Balfour, Horne and other veteran Lloyd George adherents. Bonar Law's Ministry, therefore, had to be recruited largely from raw material, and it has proved to be weak in the face of the stubborn Ruhr and Near Eastern questions abroad and the housing, labor and other difficult problems at home, which have to be faced. Pledged to the achievement of an era of tranquility, its middle-of-the-road policies have emphasized that weakness, accustomed as the country has long been to the more audacious virile whip-cracking of the Lloyd George Coalition regime. So Bonar Law has been obliged to struggle along, bearing the burden on his own shoulders with only the steadiness and one or two others sufficiently experienced to share the load.

**Lord Curzon.**  
If, as seems likely, the Premier's health now forces him to a second resignation it is declared that in making the customary recommendation of a successor to the King he will name Lord Curzon. This minister is known to hold ambitions for the Premiership, but observers agree that should his accession come about his most probable ally would be another stop gap Government of short duration due to Labor's gradually increasing influence and perhaps Curzon's own lack of physical robustness. A Curzon Ministry would give further chances for the cleavages existing within the ranks of all three parties: Conservative, Liberal and Labour, to be healed and set the stage for a general election which would be more definitive of the political sense of the country than last year's, which marked the withdrawal of a transition from emergency war-time to normal politics relationships.

**London Observer's Opinion.**  
London, April 15.—(Canadian Press Cable)—The London Observer is one of the prominent newspapers that deals with Premier Bonar Law's parliamentary differences. Chamberlain's much discussed retirement. The Observer says that when Mr. Bonar Law warned the Carleton Club at the withdrawal of the Unionist Ministers from the Coalition, he meant exactly what he said and implied. Neither his own followers nor the Unionist Ministers in the coalition understood him. Lloyd George and the Liberal Unionists, Ministers alike were prepared to allow the Government two years on the principle of "rope enough," the idea being to give them an easy start and a hard end. But the Premier adds the Observer, is the last bid to see the net spread and yet to fall into it.

**No Great Ambitions.**  
The Premier has no far-reaching ambition, says the Observer. "He has played the transitional part he said, he would play. He is discharged his obligations. He knows that the only hope for Unionism in Parliament, and still more in the country, lies in the return to his leadership of the Unionists who served in the Coalition."

"From the first, Bonar Law has desired that Austin Chamberlain should succeed him as Premier at the head of a strong Cabinet including the Earl of Balfour, Lord Birkenhead, Sir Robert Horne, Sir Laming-Woodward-Evans, and perhaps including the brilliant addition of Churchill, who knows? If this would be an administration big enough to transform the national and international situation, it would be the basis of that real national party of the future which is the only real alternative to the Socialist Party."

**Several Lions.**  
"But there are real lions on both sides of the path, as always, when something is proposed that is great and sound. The die-hard haters of the whole plan. They especially loathe Birkenhead. They have their grip on the machine and have hopeless schemes of their own. Austin Chamberlain will not rejoin the Government on half terms. Neither he nor his colleagues will separate themselves from Birkenhead. The ex-Unionist Ministers will stand together. Since Bonar Law will not continue in the Premiership on such terms, the die-hard haters are casting about for an alternative Premier who might be required at any moment. They have decided on Stanley Balfour, the ex-Chancellor, but under the present circumstances the thing would merely be the Bonar Law Government without Bonar Law."

to lend himself to this plan would argue him a man of less judgment than had been supposed."

**Impossible Now.**  
The Observer adds that a couple of months ago, when an inkling of the present extraordinary situation was abroad, the idea then was to complete reconstruction of the Cabinet under the Duke of Devonshire or the Earl of Derby, but neither of these men could now do what was then just possible.

The Observer concludes: "The choice is between a still weaker Government and a great and even brilliant administration. The fortunes of Unionism for a generation, perhaps of much more than a generation, are at stake. In any case present conditions are impossible for Bonar Law means to go."

The article is unsigned, but it is almost certain that it was written by J. L. Garvin, the editor.

**Within Few Weeks.**  
London, April 16.—Reuter's learns that, despite denial, the belief is widely held in political circles that Mr. Bonar Law will be compelled by reasons of health to resign from the premiership within the next few weeks.

The Times, on the other hand, declares Mr. Bonar Law played tennis on Saturday and Sunday and that he is hardly the recreation of a sick man, but adds: "The Premier is still suffering from a relaxed throat. He will not participate in the budget or in the Commons for at least a fortnight."

An unnamed former Minister in a leading article in The News of the World, on Saturday, said, "Mr. Bonar Law, upon retirement, would ask the King to entrust Lord Curzon with the formation of a new Cabinet."

**Conspiracy Alleged.**  
London, April 16.—The staunch supporters of Premier Bonar Law among the morning newspapers are indignant at what they call the "conspiracy to weaken the Ministry," launched in the Sunday press, which reported that the Premier was about to resign because of ill-health.

The Morning Post, the leading Conservative paper, asserts with the greatest emphasis that there is no truth whatever in Sunday's stories and that there is nothing in the condition of Mr. Bonar Law's health to compel his retirement.

The Post and other papers which

share its views attribute the "conspiracy" to Lord Birkenhead and other Conservatives who refused to participate in the Government. They also implicate Mr. Lloyd George and his supporters, whom they say desire restoration of the Coalition.

The conspiracy idea is supported to a certain extent by the moderate Liberal Westminster Gazette, whose political correspondent writes of "a certain clue which seems to stamp Sunday's reports as calculated to be in anticipation of future events, designed to further definite party arrangements and to bring about the unemployed Unionist Ministers."

Elsewhere there is equally firm support for Sunday's rumors. One writer, referring to last evening's official denial of the report says: "It may be true that Mr. Bonar Law has no intention of resigning, but it must be equally true that he has no intention of not resigning."

Most noteworthy among the newspapers confirming Sunday's reports is The Daily Telegraph, which usually expresses moderate Conservative views, although it was a strong supporter of Mr. Lloyd George. This newspaper's parliamentary expert says there are solid grounds for the rumor, and asserts that if Mr. Bonar Law had thought himself free to do so he would have resigned before now.

**Sense of Duty.**

## SIR M. SADLER SPOKE IN OTTAWA

Peoples' Desire for Better  
Education a Significant  
Thing

Ottawa, April 16.—"There is no single movement of the human mind, East or West, at this moment so significant, so passionate, as the instinct for better education," said Sir Michael Sadler, Vice-Chancellor of the University of Leeds, Eng., speaking here Saturday before the Canadian Club. Sir Michael said this passionate desire for better things was as potent in the other great sections of the world as it was in Britain and America.

Education, the speaker contended, was the most important problem of the day, as it was the most difficult. Education was something as important to the old as to the young, and what mattered most was ideals.

"What we want is life, all kinds of experiments and freedom," said Sir Michael. "Information will come fast enough. We want in our English-speaking lands to keep two great feelings alive in education, namely, compassion, which is the mother of many great acts of statesmanship as well as the gateway into the spiritual life, and hard, foreseeing and imaginative common sense combined with it."

Sir Michael compared old methods of education to a scaffolding rather than the building itself. People today must see to it that this scaffolding did not become so large a structure that the real edifice could not be built.

## TORONTO WOMAN WAS MURDERED

Hands of Man Who Was Ar-  
rested Covered With  
Blood

Toronto, April 16.—With the left side of her head battered in with a hammer and a flaming coal lamp stuck in a ten-inch knife wound in her body, Mrs. Annie Fields, fifty-five, was found murdered in her home Saturday night by Mrs. Sadler-Sadler, a neighbor. As a consequence of the murder, Alfred Dunn, thirty-three, was taken into custody on a charge of murder. Dunn, who is married and has a wife and three children in England, after being examined at detective headquarters, was removed to jail pending his appearance in the police court to-day.

Patrick O'Brien, with whom Mrs. Fields is alleged to have been living, is held as a material witness. According to Mrs. Sarchuk, Dunn visited Mrs. Fields, who was a widow, Saturday afternoon, but did not stay very long. About 8 o'clock, while standing outside her door, she heard moans issuing from the O'Brien home and within a short time Dunn emerged. Sarchuk hurried into the house and found the body in a small room at the rear.

The police, having been notified, Dunn was arrested near the scene of the crime. His hands were covered with blood.

Recommendations on Press-  
ing Matters

Toronto, April 16.—At the closing session of the Royal Commission investigating soldiers' pensions, grievances, etc., Saturday evening, Chairman Ralston expressed the view that it would be very doubtful if the findings of the Commission could be prepared in time for the present session of Parliament.

It was the intention of the commission to make an interim report on certain matters that were pressing, he said, and with which the commissioners would deal in all haste before the close of the session.

Judge Appointed.

Ottawa, April 16.—Appointment of W. H. Trueman, K. C., of Winnipeg, as a judge of the Court of Appeal of Manitoba has been announced. Mr. Trueman succeeds the late Mr. Justice Cameron, who died recently at St. Paul, Minn.

Former Bishop Dead.

Paris, April 16.—The Rev. M. G. Willis, former Bishop of Marquette, Mich., is dead here. For the past seven years he had been in charge of American Episcopal churches in Europe.

## ASKS NEW TRIAL ON MURDER CHARGE

Counsel for E. Picarrillo and  
Mrs. Lassandra, Alberta,  
Appeal to Ottawa

Montreal, April 16.—J. McKinley Cameron, of Calgary, is still making efforts to obtain permission of the Minister of Justice for another trial for Emil Picarrillo and Mrs. Florence Lassandra, sentenced to death for the murder of Provincial Constable Lawson at Coleman, Alta., third September. He informed the secretary of the Canadian Prisoners' Welfare Association here of his effort to-day.

Appeals have already been dismissed by the Appellate Court of Alberta and the Supreme Court of Canada.

Mr. Cameron is urging a new trial on the ground that the venue of the previous trial at Calgary was "full of bias," and that newspaper comment was exceedingly prejudicial, he stated, and that the testimony heard left it very open to the jury to bring in a manslaughter verdict.

## MAN BEATEN BY VANCOUVER THUGS

Refused to Give Up His Money  
and Was Attacked

Police Expect to Make Arrests  
Soon

Vancouver, April 16.—According to the police, J. Burnett, 5295 Somerset Street, South Vancouver, was badly beaten by thugs about midnight Saturday at Twenty-third Avenue and Main Street, when he refused to part peacefully with his money.

The men fled without robbing their victim, who reported to the South Vancouver police, who turned the case over to the city police.

Police say Burnett was proceeding home when two men sprang from the shadows and called on him to hand over his money. On his refusal and attempt to hurry by them, he says he was attacked, and fought desperately to defend himself, and eventually broke free, when his assailants fled.

Bleeding from the effects of the blows about the face, Burnett reported at once to the South Vancouver police, who after communicating with the city department, as the alleged offence was committed in the city, searched the vicinity of the attack for suspects.

Burnett was able to give a good description of the men and the police are hopeful of making early arrests.

## HEALER STARTLES OKANAGAN WITH WONDER CURES

Penticton, B. C., April 16.—Prof. Julius Armand, the "out-of-the-box" healer, has been conducting a great healing campaign here.

Among those he cured before large audiences last week were: Canon Thompson, suffering from headaches relieved in a few minutes; E. Nagle, for seven months unable to lift his right arm, cured and able to move it and suffering gone; Col. Clayton, D. Dewberry and a woman cured of weak eyes; Mrs. Groh, cured of neuritis in the back of her neck, then in other parts of her body.

One of the most remarkable cases, however, was that of Mrs. Warnock. This lady said she had been deaf in one ear since birth. After applying his methods of healing, Professor Armand instructed her to carefully cover her good ear so that she could not hear by means of it. He then stood about three feet from her, on the side of her deaf ear and asked a number of questions, all of which were promptly answered. The final question was: "You can hear my voice?" "I certainly can," immediately came the reply.

Professor Armand until recently was a teacher on the staff of the Sprout-Shaw schools in Vancouver and Victoria. He only took up his healing last Winter when Cousin Sam was sweeping the country, and started his work on a large public scale at the Chamber of Commerce, Victoria. He is making his cures simply by suggestion, without any element of religion being injected, and without previously interviewing or seeing his subjects.

## HON. H. H. STEVENS SPOKE IN OTTAWA

Ottawa, April 16.—"Progress with sanity," is the motto which Hon. H. H. Stevens, M.P., Vancouver, thinks should be applied to the Conservative Party according to a speech to the Conservative Business Men's Club here Saturday.

The speaker first traced world conditions. He viewed the disrupted state of Europe and said the virility and mental stability of the Canadian people had enabled Canada to weather the economic gale.

"Canada," he said, "is capable of coming back without adopting the irrational and radical schemes proposed by men who would sweep all things that are, simply because they are."

Mr. Stevens said the cry about the old parties being dead was not right. The Conservative Party had, during the war, submerged itself in order to carry on the war and had wrecked itself as a political machine. At the same time it had played a part in the winning of the war which it had every reason to be proud of.

"The time has come," declared Mr. Stevens, "for the party to assert itself again politically."

## NEW COTTON RECORD IN UNITED STATES

Manufactures Reached New  
High Level During March

Washington, April 16.—New records in cotton manufacturing were established during March when more cotton was consumed than in any month in the history of the industry. Cotton consumed during March aggregated 623,105 bales of lint and 57,745 of linters, compared with 566,924 of lint and 47,611 of linters in February this year and 515,791 of lint and 48,684 of linters in March last year, the Census Bureau has announced.

Total consumption was 625,105 bales of lint, more than 100,000 bales larger than the consumption in March a year ago.

BOY KILLED

St. Catharines, Ont., April 16.—William Hilton, fifteen, was instantly killed Saturday by a revolver in the hands of a seven-year-old playmate, Albert Norton, who had found the gun and playfully pointed it at his chest.

## MANITOBA WHEAT BILL DEBATE

Winnipeg, April 16.—Members of the Manitoba Legislature are anxious to get the wheat bill disposed of one way or the other at the earliest possible date.

W. Sanford Evans, Conservative, Winnipeg, has the floor for this afternoon, and will open what is expected to be a strong Opposition fire on the measure, his general line of argument being, it is understood, that the proposed Wheat Board is likely to do the farmers of the prairies in general, and of Manitoba in particular, more harm than good.

It is expected the fate of the measure will be decided some time this week.

## FIRE LOSSES IN CANADA IN MARCH WERE \$4,429,050

Toronto, April 16.—Fire losses in Canada during the week ended April 11 are estimated by The Monetary Times at \$4,429,050, compared with \$501,442 for the same week last year. March was another big month as respects fire losses in Canada. According to The Monetary Times, the loss was \$4,429,050, as against \$1,429,290 in February and \$4,551,249 in March, 1922.

### THE WEST COAST.

It is highly desirable that there should be a full and intelligent discussion of such an important subject as road or rail communication between Victoria and the Renfrew district of the West Coast. The more the people of this community learn about the possibilities for developing the Southwestern as well as the Southeastern section of Vancouver Island by this fundamental provision the sooner should it be possible to get practical results.

We have already observed that the logical agency for establishing the necessary connection should be the Canadian National Railways. It would mean an extension of something like thirty or thirty-five miles of line from Sooke. And it goes without saying that such a project would immediately tap a veritable treasure chest and turn the railway's investment on this island into a paying concern. But the development of tonnage is not the sole consideration upon which the C.N.R. might base its decision to undertake the necessary extension of the line. The scenic beauty of the whole neighborhood involved need fear no rival. Tourist business, therefore, as well as the business that would develop in the district itself, would be an important factor if only because the inland section of the West Coast is almost unknown to the thousands of visitors who come to Vancouver Island every year—the thousands who are ever seeking "green fields and pastures new."

It has been suggested that a paved highway be built in preference to an extension of rail communication at this stage. It is declared, and no doubt rightly so, that the motor truck could handle heavy timber and perform such other service as would be required of it equally as well as the railway. About what form of communication shall be established we are not seriously concerned. The main point for the people of this community to grasp, the task ahead of the various progressive bodies, is the desirability immediately to number the days of this city's comparative isolation from a really tangible source of prosperity.

### MR. LLOYD GEORGE TO VISIT CANADA?

At one time about the middle of last year it looked as if public business in Great Britain was in such a state as to compel Mr. Lloyd George to remain on the job all the time. The suggestion that he should take a short holiday and come to the United States and Canada was received in a thoroughly sympathetic fashion by the people of Britain, but economic conditions determined the movements of the Prime Minister. And the political capital which Mr. Lloyd George might have made after a triumphal procession through the cities of the New World went begging.

The ex-Prime Minister's first and greatest opportunity to meet the American people and capitalize the gestures of President Harding and his Secretary of State passed away when he found it impossible to attend the Washington Conference in person. But he could still have gathered a good deal of glory and political capital unto himself if he had made hay while the sun shone—if he had come to this side of the world as Prime Minister of Great Britain.

It is not to say that if Mr. Lloyd George should come to Canada and the United States in September of the present year—as now reported—he would meet with any less cordial welcome. His audience on this side of the water has not diminished in the period of transition which has seen the little Welshman drop from the role of a virtual dictator into the leader of a small following of National Liberals in the minority Opposition of the House of Commons. But Mr. Lloyd George in his present role cannot hope to endow his utterances with the appeal with which his premier position in the councils of British public life would naturally have endowed them.

At the same time the people on this side of the Atlantic are mindful of the reservations that politicians are called upon to make in times of emergency. They realize in a general sense that the Lloyd George of to-day is virtually the Lloyd George of 1911. He is a firm believer in British-American co-operation and he has the requisite magnetic powers of oratory to plead a case for closer co-operation between the two nations. His platform methods will require no interpreter. And it may well be that the report of his contemplated visit shall be confirmed.

### WHERE ARE CANADA'S SAMPLES?

Canada surely ought to consider it her right to be in the front row when it comes to feeding the millions who will visit the British Empire Exhibition at Wembley next year. Yet a dispatch received from London on Saturday indicates that Canadian samples have not made their appearance so far. Representatives of Australian producers have been on the other side of the Atlantic for weeks past and the management committee already knows what the Commonwealth is prepared to do in this very important particular.

There must be some explanation for the delay and Canada's representatives on the exhibition committee may be depended upon to urge speed in the proper quarter in this country. The advertising as well as the pecuniary benefit that must flow from such a distribution of Canadian products will be readily understood. It would be a blow to Canadian prestige and capacity if Antipodean foods were to take first place in the hundreds of exhibition restaurants.

### THE LASH FOR DRUG PEDDLERS.

Public opinion will support the attitude of the Vancouver Bar Association in its desire to include in a revision of the Criminal Code of Canada the provision for the infliction of the lash on all convicted drug peddlers. Until the prospect of physical pain spreads out before these vicious creatures who prey upon the cravings of the addict it will be difficult to curtail the business effectively.

How the illicit drug traffic is increasing in Great Britain and some conception of the devices that are employed by those who are actively engaged in this nefarious business may be gleaned from a case which was recently tried at the Guildhall. In this instance a man by the name of Humphrey was fined and sent to prison for six months in view of discoveries that were made on premises ostensibly occupied by a hardware firm bearing his name.

Counsel for the prosecution rested the major part of his case against the accused upon the latter's own account of himself and his method of transacting business. Part of this document reads as follows:

"I have a perfect organization; I have many friends amongst Customs, etc., and I understand the business very thoroughly. In fact, I do not believe that there is anyone who has a better control. On October 11 last year the steamship Mishima Maru was boarded off Hongkong by Revenue officers, and a Japanese named Tiev was arrested. His belongings included four cases of furniture. There were two sofas and four armchairs, and they contained between them, hidden in the upholstery, 2,400 ounces of morphine and 2,500 ounces of cocaine.

In Tiev's possession were found documents through which the authorities were able to apprehend Humphrey. A further document taken from the Japanese contained the following notation in the handwriting of the accused as follows: "One sofa, contains 50 lb. (and then an abbreviation relating to the drugs). Another sofa contains given quantities of crystals. One chair contains ten quantities of cubes. Another chair contains crystals, and another chair crystals. Altogether 151 lb."

Other points emphasized by the prosecuting counsel indicated that Humphrey had agreed to purchase not less than 1,000 pounds of drugs each year, while an additional letter furnished the basis of a suggested joint shipment which would be equivalent to 87,500,000 doses of cocaine. Publication of such diabolical details is all that is required to reveal the lengths to which the drug trafficker will go to reap the large monetary harvest that awaits.

### BUSINESS WITH SOUTH AFRICA.

It is not necessary to remind the Chamber of Commerce that South Africa offers a good market for the soft woods of Vancouver Island. The lumber industry is similarly aware of the fact that there is always a steady and substantial demand for mine props in the large mining areas of the Union. The visit of Mr. W. J. Egan, Dominion Trade Commissioner for South Africa, to this city a few days hence will enable the Chamber and local interests to discover the prospects for increasing Vancouver Island's business with that part of the Empire from which Mr. Egan comes.

For some years past Africa has shown a keen desire to purchase its North American requirements from Canada. And as for as British Columbia is concerned Mr. Egan reminds the producers of this Province that the efforts of the South Africans have brought more results in export trade from this Province than any direct action of the British Columbia manufacturers themselves. This applied with special emphasis to British Columbia exports to South Africa, where considerable consignments have recently arrived, and where there is a large potential market for lumber.

Whatever has been the principle in the past it ought to be fairly safe to predict that Vancouver Island is now ready to go after any business that offers in any part of the world. There ought to be plenty of co-operative energy ready to go to work.

### NOTE AND COMMENT

While his Government is in danger Mr. Bonar Law plays tennis. That reminds us of another "politician" who strummed a primitive violin while his home town went up in smoke.

Lord Farrar told a gathering on Saturday that he had lost confidence in the honesty of the members of the House of Lords. Some unkind individual will go one better and put the Commons in the same boat.

Newspapers the world over are expected to publish a fair amount of matter that is hardly entitled to the name of news. To-day's dispatch from London, announcing to the world that the former Crown Prince of Germany is suffering from a progressive form of insanity, is a sample of what we mean.

Indications point towards a real period of tranquility for Mr. Bonar Law. He has not found the condition which he ordered when he assumed the Premier's job; he has little hope of finding it as long as he remains in his present position; there is only one thing left for him to do if he is still in the mind he was when he went to the people last November.

#### SINGLE TAX.

To the Editor:—In a letter printed in The Daily Times of the 6th inst., and signed "Ratepayer," appears the following: "Even if the theory of single tax were sound, which it is not, its accomplishment is utterly impracticable, so that the best thing to do is to forget it." Laws, now we're put down! This gentleman doesn't condescend to argue, oh no, that would be too undignified. Still this is a utilitarian age, and people wish to be shown.

Now then, Mr. Ratepayer, trot out some of the reasons for the belief that is in your mind. I think I have made clear that property which is the free offering of Nature, and property which is the product of industry, are essentially two different kinds of property, the one deriving its value from the community, the other from the individual. Surely the revenue from the one belongs to the community, and the revenue from the other belongs to the individual.

Will Mr. Ratepayer kindly show me where I am in error? As to the impracticability of the proposition I have no belief that what is right is always practicable. The history of the world is full of examples where people have had a small installment of single tax they have invariably liked it. The principle has found a place in many political platforms, and instead of it being dead, as we are told, is to-day the great issue. The Australians have set aside 900 square miles around their Capital, Canberra, to be administered as a single tax community, never to be alienated, but leased to citizens with guaranteed security for all buildings and improvements.

Mr. Ratepayer's objection that armies of tax collectors would have to be dispatched with is, of course, a great argument in favor of single tax instead of against it. Mr. Ratepayer recommends that we "forget it." Neither he nor I will be allowed to do that, and "nothing is ever settled until it is settled right."

Sooke Farmers' Institute Passes Resolution on Subject

Sooke, April 16.—Sooke Farmers' Institute. A general meeting of the Sooke Farmers' Institute was held on Thursday evening in the Sooke Hotel, with the Rev. S. Landie, the president, in the chair.

The secretary reported on the recent movement of the potato growers to form a marketing organization to concentrate on certain approved varieties of potatoes, and to improve the quality as well as the crop by the use of certified seed. A quantity of certified seed potatoes will be obtained for local distribution.

A field competition among the raspberry growers of Sooke on this year's plantation will be held, and three prizes given for the best kept fields. The inspection, by J. V. White, assistant horticulturist, will be held about the middle of August, and the following score-card will be the basis for judging: soil selection and drainage, raspberry position, cultivation and freedom from weeds, forty points; vigor, twenty points; uniformity, twenty points.

interesting costumes, and it was gratifying to see the interest taken. The voting was done by popular ballot and the scoring was very even. Mr. Wilham, a real hard-timer, won the first prize, followed closely by Bert Acreman and J. Bulch. For the ladies' prize it was a close run between Mrs. Wilham, who had a most ingenious and elaborate dress made from window curtains, and Mrs. Helgesen, whose costume included a most unique girle ornamented with empty spoons. Miss Grace Throup carried off the girls' prize with a most becoming dress made out of a gunny sack, which she had embroidered, she was closely followed by Miss L. Poirier, with a dress made of canvas, and by Irene Helgesen. Clifford Charney won the boys' prize. Others in costume were Mrs. Slack, Mrs. Cullum, Mrs. C. T. Muir, Mrs. J. S. Muir, Mrs. Soward, Miss Esther Wilson, whose specialty was a necklace made of jelly beans, Mr. Helgesen, Mr. Bulch, P. Grainger, Miss F. Burr, Miss M. Soward, Miss L. Helgesen and Miss L. Helgesen.

The supper was in the hands of Mrs. Cullum, Mrs. J. S. Muir, Mrs. McBride, Mrs. Jackson, and Mrs. Higgs. The Sooke two-piece orchestra supplied the music in their usual efficient manner.

operated on at the beginning of last week and hopes to be out again in about ten days' time.

Ted Barbour, the second son of Mr. and Mrs. C. H. Barbour, of Sooke, had to be taken to town to undergo an operation for appendicitis and is going on very well.

An absent-minded man came home one day after a heavy storm in a

very wet and bedraggled state. His wife met him at the door.

"I'm terribly wet," said her husband. "I forgot to take my umbrella!"

His wife was surprised that he even remembered that he had forgotten anything, and asked him when he had thought of it.

"Why, my dear," he replied, with great satisfaction, "when it stopped raining and I went to shut it."

### A New Selection of Large Size DRESSES

Ranging From 42 to 46

## \$35.00 and \$47.50

#### TRICOTINE DRESSES

Remarkably attractive Dresses for street wear. They are designed very fashionably. They are trimmed largely with military braid, while stitching with here and there a touch of silver or gold gives a most pleasing effect. Free hanging, either plain or pleated, relieve the straight lines of the skirt. The sleeves, long or bell shape. Shown in shades of navy, black and brown.

#### CANTON CREPE DRESSES

Distinctive smartness is apparent in these handsome Dresses. They are very neatly designed, the plainness of the skirt is relieved by jabot sides, held in place by cut steel ornaments or fancy rosettes. On some cable stitching is used as trimming while beads and buttons are used extensively. The flared split sleeve, one of the latest innovations of fashion is featured in these dresses that are offered in black, brown or nigger.

Says Wincarnis Restored Her Health

"Ten months ago I began to lose my strength. My household duties became burdensome. I felt exhausted after the slightest exertion. Then my nerves got so bad that at the slightest noise I used to tremble, my legs would shake and my heart beat violently causing me to gasp for breath. One afternoon a friend called to see me and she was shocked at my pitiable condition. She went out and bought a bottle of 'Wincarnis' and gave me a dose right away. I continued taking 'Wincarnis' three times a day and its effect has been almost miraculous. Gradually but surely my strength came back, a color came into my cheeks, my nerves grew steady and it seemed as if I had taken a new lease on life. Today I am a very happy woman because I am well."

C. P. R. CLUB OPENS  
NEW TENNIS CLUBSaturday's Formal Opening  
Followed by Music and Dancing

Formal opening of the C. P. R. Tennis Club courts took place on Saturday afternoon. Ideally situated at the corner of Belleville and Menzies Streets, on the opposite side of the street from the Parliament Buildings, the new club house was opened with a large turnout of players and friends assembled to watch the opening games on the courts. Some exceptionally keen games were played, and judging by the interest displayed during the contest, the C. P. R. Tennis Club is to have a very prosperous season.

During the afternoon tea was daintily served in the dining room of the club premises. Special mention should be given to Misses Wilson, Cave and Anderson, who composed the refreshment committee, for having the small tables so tastefully decorated and for providing such a delightful treat. Tennis continued till dusk; when the rest of the evening was spent in music and dancing. The large room of the clubhouse is very suitable for a small club dance. Everyone in attendance was delighted with the afternoon and evening entertainment, and it was freely voiced that a small dance might wind up every Saturday's play.

The clubhouse has been beautifully fitted up, and two large rooms being made into one to accommodate as many members as possible at concerts, while a good piano has also been acquired. The rooms have just been refurnished and painted throughout, quite a large part by voluntary help from club members, while the ladies' committee has attended to the interior decorations.

St. Andrew's Auxiliary — The Ladies' Auxiliary to St. Andrew's Cathedral Society held their meeting in their new quarters on Thursday evening, which was well attended. After the meeting a most enjoyable time was spent in singing and dancing. Mrs. Patterson at the piano played beautifully, and Mrs. Pyle's song was much enjoyed. The ladies served refreshments. The ladies intend to hold a social at their home on Saturday afternoon, and it was also arranged to hold a big dance in the near future along with the brothers to finish up the winter season.

Mrs. A. C. Flumerfelt, "Rube-huns," Pemberton Road, entertained Saturday afternoon with seven friends at bridge and Mah Jongg. JAPANESE DOCTORS  
RESENT FEMINISM

Alarmed at Progressive Spirit of Japanese Women

Toronto, April 16.—Three eminent Japanese medical men now visiting Toronto are much agitated over the part women are playing in the affairs of Japan. The doctors, who are touring this country and the United States for the purpose of furthering their knowledge of hospital equipment, university instruction styles, x-ray treatment and surgical methods, are Professor Myaki, dean of the faculty of medicine to the Imperial university of Kyushu; Dr. Hata, professor of biology and medicine at Kio University, and Baroh Tukaki, professor in surgery at the University of Tokio.

Regarding the emancipation of Japanese women, the doctors declare: "They are going altogether too far with their new privileges; they try to run the country now. The women are into everything just like here—business, sport, the stage—why, some of them are coming out here to become doctors; they will want to vote soon; they are taking advantage of us but we can do nothing about it."

The doctors are all tennis enthusiasts. "We shall lift the Davis Cup this year," they boast. The United States is their enemy, the same team while Japan has an entirely new one.

TO ENTERTAIN T. B. MEN.

On Tuesday evening the Victoria Women's Institute will entertain the patients of the Tubercular Ward at the Provincial Jubilee Hospital at a concert. Members are requested to bring refreshments and to meet at the gate near the Nurses' Home at 7.30.

To Hold Daffodil Tea.—The ladies of St. Barnabas Guild jointly with members of the W. A. Inten, holding a "Daffodil Tea" in the school room, on Wednesday afternoon, from 3 to 6 o'clock. Home cooking and candy will be for sale and an excellent programme of music will be rendered during the afternoon. Mrs. Newcomb has been appointed general

convenor of the affair, which speaks well for the success of the undertaking. The proceeds will be used to purchase sewing materials for the future bazaar and to assist in the general work of the W. A.

## EMPRESS OF CANADA'S PLEASURE CRUISES

Details which have been worked out for the Canadian Pacific liner Empress of Canada's pleasure cruises next Spring indicate that the ship will be a very busy vessel for five months. She will make two distinct voyages, the first around America, from Vancouver to New York, and the second around the world, from New York to Vancouver. As the stop at New York between the two cruises will be only five days, however, she is making what is virtually one long trip.

Leaving Vancouver for New York, January 3, 1924, the big liner will call at Victoria, San Francisco, Los Angeles, Honolulu, Panama Canal, Colon, Havana and finish at New York. She will be 21 days en route. Sailing from New York, January 30, she will visit Funchal, Gibraltar, Algiers, Monaco, Naples, Port Said, Cairo, Suez, Bombay, Colombo, Rangoon, Singapore, Batavia, Sourabaya, Manila, Hongkong, Shanghai, Kobe, Yokohama, Honolulu, Hilo, Victoria and Vancouver. There will be optional trips in India and in the Orient. The voyage will take 114 days.

## TWO GOVERNMENT SHIPS IN PORT

Canadian Volunteer in Drydock and Canadian Freighter Awaiting

Increasing the activity which has been noticeable of late at Esquimalt, the Canadian Government Merchant Marine Freighter Canadian Volunteer arrived in port from Vancouver early this morning and was drydocked without loss of time in the Government graving basin for cleaning and painting and the fitting of a new propeller.

The Canadian Volunteer recently arrived on the coast from the Atlantic to engage in the freighting business between British Columbia and California ports.

She is of larger tonnage than the Canadian Observer, Canadian Farmer and Canadian Rover, the other boats in the California service, and which are to be offered for sale with a number of other smaller vessels of the Government fleet.

Yarrow's Ltd., which firm is doing the work on the Canadian Volunteer expect to float the ship to-morrow.

Immediately the Canadian Volunteer comes out of the dock the steamship Canadian Freighter will be floated over for overhaul. The Canadian Freighter, Capt. Carl Bissett, this morning was berthed alongside the coal wharf in Esquimalt Harbor awaiting her turn at the dock.

The work on the Canadian Freighter will be carried out by the Victoria Machinery Depot, Ltd. Repairs to the Griffith steam engine on the Yarrow ways is proceeding satisfactorily, and it is expected that the work will be completed by the end of the week.

Good progress is being made at Yarrow in fitting out the ferry Motor Princess. This craft will be ready for her trials by the middle of May.

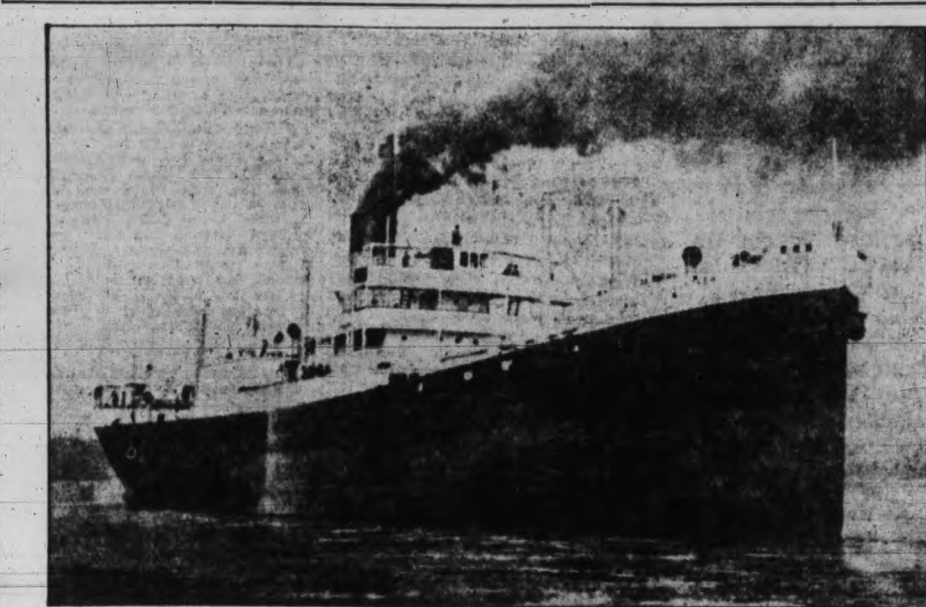

## SS. STUART DOLLAR WENT TO ALBERNI

The Robert Dollar steamship Stuart Dollar arrived in the Straits yesterday morning from the Far East. She picked up a pilot and proceeded to the Alberni Canal to load lumber at Port Alberni.

## CAPT. R. C. BRENNAN ROSE FROM RANKS

New Marine Superintendent of Admiral Line Started as Deck Boy

Seattle, April 16.—When H. F. Alexander, president of the Pacific Steamship Company, announced the promotion of Commander R. C. Brennan, marine superintendent of the company, to the new post of operating manager, genuine satisfaction was voiced in waterfront circles.

"Jimmy" Brennan, as he is known to shipping men, is virtually a Seattle lad and practically all his sea experience has been in the service of the lines of H. F. Alexander. He has been the head of the ship out of the Evans, then known as the Buckman, lead the attack which resulted in the capture of the men, one of whom jumped into the sea.

From that lowly capacity Commander Brennan rose to become master of the speedy coastwise liner Yale after having served his time as quartermaster, junior officer, the various grades of mates and attained his master's license as commander of the steamship Admiral Evans. It was while he was quartermaster on the Evans, then known as the Buckman, that Commander Brennan learned the art of the sea. He was on the Evans when the ship was captured by the Japanese, and he was one of the men who jumped into the sea.

It was on the memorable occasion when two passengers bound from Seattle for San Francisco attempted to hold up the vessel and killed Capt. Ben Woods when he resisted. Brennan, then quartermaster on the Evans, led the attack which resulted in the capture of the men, one of whom jumped into the sea.

## SWISS COLONISTS ARRIVE AT ST. JOHN

St. John, N. B., April 16.—The steamship Melita, the third passenger ship to arrive within 24 hours, docked yesterday from Antwerp and Southampton via Cherbourg.

Sir George and Lady Bury were among the passengers on board. A party of 12 girls and 124 boys from Dr. Barnardo's home in England, was on board en route to Toronto. Thirty-two colonists from Switzerland, among the first of the group of 2,999 who are being brought to Canada under colonization schemes, also arrived. The Canadian Pacific steamship Marburn, from Glasgow via Belfast, docked yesterday, bringing 745 passengers. On board passengers are en route to Ontario. Forty of these are domestics, and many of the remainder are farmers.

## DEFENDER MAY COME

The Harrison-Deer Line steamship Defender will probably be replaced in the North Pacific service by the steamship Defender, it was reported to-day.

## Canada Unable to Compete with Britain in Shipbuilding

London, April 16.—Canadian Press Cable.—Arthur Gillman, managing director of the Vickers Company, Montreal, when leaving for Canada Saturday, remarked that British yards could build ships at forty per cent. lower costs than Canadian yards, due entirely to the difference in labor costs. More orders for lake freighters, he said, were likely to come to British yards.

## Montclare Arrived

St. John, N. B., April 16.—Among the arrivals on the steamship Montclare Saturday were two parties, one consisting of 164 from an international agency and 53 colonists who came to Canada under the direction of C. P. Williams, of Calgary.

With a very few exceptions, they will go to the Canadian west to work on farms.

Many of them are sons of wealthy land owners and farmers in Great Britain and likely will purchase farms of their own. Some of the young men were reported to have with them from £2,000 to £3,000 and in addition have good financial backing at home.

## Kosmos Ship Theban To Load Lumber Here

German Carrier Expected to Arrive From San Francisco April 25 to Load 2,000,000 Feet for Atlantic Coast—Margaret Coughlan Expected in May to Load for Montreal

Following closely upon the heels of the Hans Hemsoth, another German ship is coming here to load lumber for the Atlantic coast.

The latest German to be fixed for Victoria loading is the steamship Theban, of the Kosmos Line, which before the war operated a regular fleet of steamships between European and North Pacific ports.

The Theban, it was announced to-day, is due to arrive here April 25 to load 2,000,000 feet of lumber at the Upper Harbor for New York and Boston. The Theban is now at San Francisco. She is the first of the Kosmos Line vessels to resume the service to the Pacific coast from Germany via the Panama Canal.

The Canadian Puget Sound Lumber Company has been forwarding regular shipments of lumber to New York, New Bedford and Boston. The company also has participated in the movement of lumber to Eastern Canadian ports.

A shipment of 1,500,000 feet of lumber will be forwarded early next month by the Canadian Puget Sound mill on the steamship Margaret Coughlan to Montreal, Que.

The Margaret Coughlan is expected to go on berth here about May 5. About the same time the steamship Bratsberg is expected here to complete with lumber for the Atlantic Coast. The Bratsberg is now due at Prince Rupert from the Orient en route to load lumber at Swanson Bay.

## NEW COMMANDER ON ACHILLES

Captain W. Glossop Relieves Captain G. A. Flynn on Blue Funnel Ship

SS. Philoctetes En Route Here From Japan Coast

When the Blue Funnel liner Achilles gets away from this port for sea on Thursday, Capt. George A. Flynn, her famous commander, will be absent from the bridge. Capt. W. Glossop, who recently came out from Liverpool, took over the command of the Achilles from Capt. Flynn at Seattle. Capt. Flynn has already left Seattle for Liverpool and on his arrival in England will be appointed to another ship. Capt. Glossop is known on the North Pacific coast.

## Philoctetes Coming.

The new turbine Philoctetes, sister ship to the Achilles, is crossing the Pacific from Japan, under the command of Capt. Propert, who was formerly out here in the company's Panama service.

The Philoctetes, according to advices received by Henry Davidson, local agent for Doddwell & Co., sailed from Yokohama April 12 and is expected to arrive here April 24. She is running slightly behind her schedule, having been detained in loading cargo at Oriental ports.

The inbound Blue Funneler has 50 tons of freight and 87 Asiatic steerage passengers for Victoria.

The steamship Eurydamas, which is coming out to this coast in the Panama service of the Blue Funnel Line, left Balboa last Wednesday night and is scheduled to reach San Pedro April 23. The Eurydamas will come on to Victoria from San Francisco.

## MEMORIAL SERVICE HELD OVER THE SPOT WHERE TITANIC SANK

Halifax, April 16.—A memorial service was held yesterday at the scene of the foundering of the Titanic, it is presumed, from the following message incorporated in Saturday's ice report of the United States ice patrol cutter to C. H. Harvey, local marine and fisheries agent:

"Memorial service being held over Titanic, latitude 41.45 North, longitude 50.14 West."  
The White Star liner Titanic, then the world's largest ship, on her maiden voyage from Southampton to New York, struck an iceberg off Newfoundland around 10 o'clock on the night of April 14, 1912, and sank in about four hours. More than 1,500 lives were lost.

## RESTORER TALKS CROSSING OCEAN

The gableship Restorer, bound from Honolulu to Victoria, was to-day reported by wireless as 1,633 miles out from Honolulu at 8 o'clock last night.

The inbound steamship Makura was last night reported 2,125 miles out from this port.

## WRECK OF BARGE JAMES DRUMMOND HAS DISAPPEARED

It is announced by the Department of Marine that the day beacon on the wreck of the James Drummond on Dail Patch, Seaforth Channel, has been discontinued because the wreck has finally disappeared.

Instead of a light on the ship's mast the Department of Marine will probably locate a buoy on this shoal. The James Drummond was an old full-rigged ship which in 1913, while being towed as a barge, went aground in Seaforth Channel, and since that time a light has been attached to her mast.

Now, however, no vestige of the wreck is visible, even at low tide.

## CAIRNS GETS NEW LEASE ON HIS LIFE

Toronto Citizen Declares Tanlac Ended Stomach Trouble and Prolonged His Years

"Of all the medicines I ever saw, Tanlac is the best. It has given me a new lease on life. I do believe." When a pioneer citizen like Edward Cairns, 17 Sumach St., Toronto, Ont., speaks in the above manner of the benefits he received from Tanlac, no better proof of the medicine's merit could be offered. Mr. Cairns holds the distinction of having driven one of the first horse cars in the old days.

"I suffered from stomach trouble six or eight years," continued Mr. Cairns. "After eating, gas bloated me and pressed on my chest so tight my heart palpitated something awful, and I had to scramble to the window for air. My nerves were so unstrung I was afraid to cross a street in the traffic, was terribly weak and run-down, and seldom got a good night's sleep."

"The Tanlac treatment reversed all this, and I never have a trace of my old troubles. It is certainly wonderful medicine."

Tanlac is for sale by all good druggists. Accept no substitute. Over 35 million bottles sold. (Adv.)

## Royals to Continue Lacrosse War in B.C. Cose Races Expected by All Managers Firsts Show Class Soccer Teams May Play for Island Title West Ham Improves Its Chances of Promotion

**Refused to Apply For Permission to Play in B.C. A. L. A., Which Now Has Five Clubs and Plans Big Season This Year; New Westminster Wants P. C. A. L. A. Recognized But New Body Looks Other Way and Proceeds With More Important Business**

Vancouver, April 16.—Dave Taylor, secretary of the Pacific Coast Amateur Lacrosse Association, informed The Province this morning that the breach between the amateur lacrosse interests widened over the week-end and there seemed, he said, absolutely no possibility of one-concrete league being formed to govern the sport in the Province this season.

On Saturday night a meeting was held in the Native Sons of Canada clubrooms, when it was decided to form a league embracing one Vancouver team under the aegis of Billy Grant, one in Victoria, one in Nanaimo and possibly the Squamish Indians. Westminster, it was intimated, could enter if they saw fit.

According to Taylor, they refused to see it that way and this morning it looks as if the proceedings of last year, which saw two leagues getting along more or less successfully where one would function considerably better being re-enacted.

**Westminster Is Sore.**

Saturday's meeting occupied nearly two hours, Taylor reports, and nineteen interested lacrosse players and officials waited outside while the deliberations went on. At the conclusion the outsiders were informed that a four-team inter-city league had been approved and an offer extended to Westminster.

This was refused, the P. C. A. L. A. officials feeling that the P. C. A. L. A. planned to proceed with the year with the Westminster senior amateurs holding the Kilmarnock Cup and forming a two-team league with a club in Vancouver.

Just who is who in amateur lacrosse, therefore, is hard to say. The Royals hold the mug emblematic of the provincial championship and the Jones holds the Mann Cup. The V. L. C. which won the trophy last year from Victoria, and by arrangement may figure in the Vancouver league, but it is hard to see how they can be when they are not recognized by any amateur body either in British Columbia or elsewhere throughout the Dominion.

It's the old story, New Westminster wants to do all the dictating in amateur lacrosse. They find now that they cannot get away with it and want to act as part of the spoiled child.

The B. C. Amateur Lacrosse Association, which was enlarged at the meeting in Vancouver on Saturday night, will be the controlling force in the province. Westminster will be allowed to stay out in the cold until they freeze or wise up and decide to come inside where it is warm and comfortable.

The B. C. Amateur Lacrosse Association was formed last year when the Vancouver and Victoria teams got together and decided to operate independent of New Westminster. The Salmonbellies have shown considerable animosity against Victoria and have tried to keep the Capitals out of lacrosse. When Vancouver threw in its lot with Victoria last year the Salmonbellies got the Elks to form a team in Vancouver and kept the Pacific Coast Amateur Lacrosse Association over the Victoria and Vancouver players for the Mann and Kilmarnock Cups, the Mainlanders winning both. Westminster and the Elks played the ice cream cones.

**A Bad Move.**  
The Vancouver champions decided to defend the world's championship against New Westminster and the game in the Royal City was called off when a riot developed. Con Jones, backer of the Vancouver team, then proceeded to give a dinner to some lacrosse officials and to the surprise of everyone handed over the Kilmarnock Cup, emblematic of the British Columbia lacrosse championship, over to New Westminster. Whether or not Con wanted to make a good fellow of himself in the eyes of the Royal City is not known, but he certainly added to the fire-which has been burning in lacrosse circles.

This year the B. C. Lacrosse Association decided to expand and at a meeting held in Vancouver on Saturday night the applications of five clubs, including two in Vancouver, the V. C. A. and Sons of Canada; Nanaimo, Victoria and Squamish. Westminster refused to make application and as Taylor said in the above dispatch from Vancouver, stayed out while the deliberations went on. The Salmonbellies had it within their power to bridge the difficulties which have embarrassed lacrosse in this province for years but they refused, hanging on to the old belief that the P. C. A. L. A. is the senior organization. It may be the senior organization but it is not thriving, in fact in the last two years it has lost ground. The B. C. A. L. A. is the live body and has shown its progressiveness by expanding and making a four-team league.

The playing season of the B. C. A. L. A. will open on May 24 with a game at Victoria between the Capitals and Victoria; on May 26 the Squamish Indians will play Nanaimo at Nanaimo. Definite dates for the remaining ten games will be set later. Arrangements will be made for games in Victoria during the Moose Festival in June.

Officers elected on Saturday night were as follows:  
Honorary president—Hon. W. C. Nichol. Honorary vice-president—C. E. Tisdall and John Hunt. President—Heck Fowler, Vancouver. First vice-president—D. McFarlane, Victoria. Second vice-president—W. G. Haham, Nanaimo. Secretary-treasurer—Cory Hesse, Vancouver.

The executive committee to be chosen will consist of two representatives from each club.  
E. C. Taylor and D. McFarlane represented Victoria at the Vancouver meeting.

## WHIZZBANGS TO MEET COLLEGE IN FINALS

**Eliminated V.I. Quintettes in Basketball Semi-Finals**

The Victoria College girls and the Whizzbangs five will enter the final for the Vancouver Island ladies' basketball championship as a result of their winning the matches in the semi-finals Saturday night at the Trades Hall. In the first game the Whizzbangs defeated the V. I. Senior 15-2. In the second contest the College team was successful in eliminating the V. I. Wanderers 31-4.

The first game provided plenty of excitement for the enthusiastic spectators. Both teams proved to be evenly matched and from the outlook at the commencement of the game it looked like a war for the V. I. girls, but about half way through the first stanza the perfect combination of the Sunday School players was working like a charm, and their accurate shooting was pulling up on to even terms with their opponents. At half time the count stood 6-1 in favor of the winners.

The resumption of play the Whizzbangs had no trouble in holding their lead and their deadly shooting soon increased their lead until at time the score stood 15-2 in their favor.

The weak shooting of the V. I. aggregation lessened their chances considerably for a win.

The second game proved to be an easy win for the crack school team, and although the V. I. quintette secured an early lead their advantage was short lived and as the College girls lived up to their work they "dead-eyed" the shooting and gained them a lead and at the half-time whistle they were leading by a 9-2 score. Once again the poor shooting of the V. I. girls put them at a decided disadvantage as time and time again they had open shots at the hoop but failed to make their chances count.

The losers were playing a purely defensive game while the College girls were relying on their accurate shooting and perfect combination to pull them through with a win. The score steadily increased in favor of the winners until at time they were leading by a 31-4 score.

The preliminary game between the V. I. Middle and the James Bay Cubs the former were successful winning by 4-2. Hard checking was feasted throughout the whole of the match, and in some of the young players will develop the basketball of the coming generation.

The teams and scores were as follows:  
Whizzbangs—B. Hamilton (7), G. Wellburn, Florie Gates (2), K. Wellburn (2), Jean Burridge (4).  
V. I. Seniors—Mrs. Davies (2), Mrs. Dix, Una Shakespeare, A. Griffin, M. Andros.

College—E. Lewis, B. Barnett (4), P. Musgrave (10), N. Styan (10), M. B. (7).  
V. I. Wanderers—Rita, Humber, D. Long (4), V. Stewart, C. Passmore, G. Thorpe.

V. I. Middle—Jumbo Davies, J. McDonald, Able Davies (4), Ray Rickinson, Archie Smith.  
James Bay Cubs—Johnson, P. Loran, E. Brown, L. Dixon (2), W. Andrews, G. Whitney, R. Brown.

All the games were refereed by Bill Erickson in a satisfactory manner.

## WESTS ARE DEFEATED BY NANAIMO ELEVEN

Nanaimo, April 15.—The visiting Victoria West football team were defeated here on Saturday afternoon by a score of two to one. During the minutes of the game the visitors were the aggressors and were the first to get on the net, but their advantage was short lived as the local team took the game into their own hands and scored two goals in the first half. In the final, while in the last game the grade, shirts were only able to penetrate for a lone tally.

On Saturday, April 28, the Victoria team will be played.

## ESQUIMALT PRACTISE

All members of the Esquimalt lacrosse team are requested to attend the practice to be held at the Centennial Grounds on Tuesday evening at 6 o'clock. A cordial invitation is extended to any new players who wish to try for a place. It has been decided that the schedule will open about May 7, so that a very short time remains for players to get into shape for the first game.

## American League Has Number of Pennant Contenders; A Record Season

New York, April 16.—With the opening of the 1923 baseball season but a few days off, the regular pre-season forecasts in the major leagues are being given out by the magnates. All are of the opinion that the coming season will be a record one in the matter of close pennant races and public interest.

Five clubs in the American League have pennant possibilities, according to President Ban Johnson. Detroit, Cleveland and Chicago will enter the race better equipped than last year while New York, because of its pitching staff, must be regarded as a dangerous contender. The illness of George Sisler may keep the Browns out of the race at the start, President Johnson figures. Connie Mack's Athletics may furnish some surprises and Washington's corps of young pitchers may prove sensational.

**Nationals in Good Shape.**  
John A. Heydler, president of the National League, says the teams in this circuit never were in better condition to start the diamond race than they are at present. He refused to predict possibly pennant contenders, but referred to the return of "Matty" to the baseball game at the head of the Boston Club as the "most welcome news of the winter."

K. M. Landis, baseball commissioner, apparently has no favorites in the 1923 major league race, but in a statement to-day said that he looked for a "great year for the fans." The training season has produced highly satisfactory results, in his opinion, and the race in either league should be interesting.

Without exception, the managers of the various clubs in the major leagues, issued their annual hopeful forecasts from the center of the floor and the public is going to welcome the opening of the season with enthusiasm.

## INCHCAPE, FAMOUS RACER, BURNED TO DEATH IN BIG FIRE

Johnstown, N. J., April 15.—Inchcape, noted racer and prize stallion in the Harry Sinclair racing stable, was burned to death along with 29 brood mares and 11 suckling colts in a fire that swept a stable on the Ranca-cosa stock farm here Saturday night.

The animals were valued at \$100,000, according to R. W. Thomas, manager of the farm. Inchcape alone was valued at \$40,000, he said.

The cause of the fire was not determined.

## LACROSSE BOYS MEET IN ANNUAL SESSION

**Leonard Tait Elected President; Stickhandlers Expect Bumper Season**

Leonard Tait was elected President for the ensuing year at a meeting held at the Victoria Amateur Lacrosse League held in the Metropolis Billiard Parlors on Saturday night. Other officers elected were as follows: President—B. C. Nichol, vice-president—B. C. Nichol, secretary—B. C. Nichol, treasurer—B. C. Nichol.

A bumper season is expected this year and the clubs which intend entering the league must have their entry form in the hands of the secretary not later than April 25, when a meeting will be called to draw up a schedule and set the date for the opening match.

It is not known yet what teams will enter, but it is expected that all of last year's team will compete for the honors.

## Presbyterians Altogether Too Fast for Huskies and Win Final Game for Victoria and District Basketball Championship by One-sided Score

Gus McKinnon's panting maroon and white clad squad of basketballers brought another honor to the First Presbyterian Church on Saturday evening when they defeated the Huskies and won the Victoria and District Basketball Championship by One-sided Score.

The Huskies showed up well in the first ten minutes of the first half, but when they failed to get their long shots through the hoop they gradually slipped back and the Firsts, working a pretty combination, proceeded to pile up a big total. In the second half the Huskies could not break up the fast dribbles of the champions and at times the Firsts had regular passing bees. The Huskies were seventeen minutes without scoring a basket in the second half. Slight alterations were made in each team, Tontevia replacing Johnny Peden at guard for the Huskies and Art Boyd finding his way back to town in time to play centre for the Firsts, which allowed Brackenridge to go back to the forward line.

**Bob Started It.**  
The first point of the game was scored by Bob Whyte on a free shot. Bob Peden showed the Huskies to the front with a wonderful southpaw shot from the center of the floor and Tommy Nute pushed one in from close in. Boyd and Forbes notched the basket which put the Firsts to the front, where they stayed for the rest of the game. Boyd took a long pass from Whyte and scored and Forbes put two free shots through the hoop in succession. Brackenridge found the length of the floor and Bob Peden slipped in another pretty southpaw shot. Nute picked off a nice shot from the corner. The Presbyterians followed with a string of shots and McKinnon's dribbles gave Boyd and Forbes chances and the Firsts added to their lead. The half time whistle found the champions leading by 15-8.

Brackenridge led off with a basket in the first half on a pass from Whyte, after which Boyd took his only basket of the game. Forbes dribbled and found the net and Brackenridge scored underneath and scored. Forbes located the basket again from the centre of the floor.

**Couldn't Put Them In.**  
The Huskies had a lot of hard luck on their rainbow shots. They were unable to get underneath the basket and the close checking of the Firsts' guards. Whyte added a sweet shot from the V. I. to his tally. Boyd took the ball from under the net and slipped it into the basket. Bob Peden scored the first basket for the Huskies in the second period, fifteen minutes after play had started. Mackinnon added a sweet shot from the V. I. to his tally. Boyd took the ball from under the net and slipped it into the basket. Bob Peden scored the first basket for the Huskies in the second period, fifteen minutes after play had started. Mackinnon added a sweet shot from the V. I. to his tally.

The Firsts deserved the win. Their team has shown good form all season and it was a fitting climax to their season. The Huskies gave their best effort but seemed to tire under the fast going. The Firsts won the Senior Sunday School and Victoria and District titles this year, repeating their splendid performance of last year. They now seek the British Columbia championships in both branches.

**Prizes Presented.**  
After the game Dr. M. C. Thomas, president of the Y. M. C. A., presented the cup and medals to the victorious Firsts, while the Huskies as runners-up were given a set of medals.

The teams and individual scorers were as follows:  
First Presbyterians—Forwards, Brackenridge, 10, and McKinnon, 2; Centre, Boyd, 10; guards, Whyte, 3, and Forbes, 12.  
Huskies—Forwards, R. Peden, 6, and T. Peden, 2; centre, T. Nute, 4; guards, Tontevia and Jones, 1 each. Referee, Taylor.

**A Drawn Game.**  
St. Mary's and Normals clashed in a whirlwind exhibition, which resulted in a tie. After a speedy overtime period of five minutes, in which each team netted two points, the officials decided to call the game a draw, at 36-36.

Both teams played very fine basketball. The line-up:  
Normals—Moses, Hopkins, Kilpatrick, Hastings, Bell, Hemingway, Parfitt, Jeffrey.

## Paddock Will Defy RULING OF A.A.U.

Kansas City, April 15.—"I am not defying the National A. A. U., but I am going to run in the University of Paddock game next month," declared Paddock, fastest man, declared Saturday night.

Paddock is on his way to New York, where he will sail for Europe immediately.

"I am representing the University of Southern California and my extension is being defrayed by the University of Paris," he said, "and in a collegiate meet, therefore, National A. A. U. has no jurisdiction over me. Any action that it takes to prevent my participation in the games will be completely ignored," Paddock declared.

## STEPS ARE TAKEN TO FORM NEW BALL LOOP

**Alberta Initiates Scheme to Have W. C. Amateur Baseball Association**

Calgary, April 16.—Initial steps toward the formation of a Western Canada Amateur Baseball Association were taken at the annual meeting of the Alberta Amateur Baseball Association held here on Saturday when Secretary E. D. Battum was instructed to get in touch with the provincial organizations of Thunder Bay, Manitoba, Saskatchewan and British Columbia with a view to launching the organization so as to foster inter-provincial play.

Officers elected were: President—McGhee, Didsbury; vice-presidents, B. W. Bellamy, Medicine Hat, and R. A. Gordon, Edmonton; secretary-treasurer, E. D. Battum, Calgary.

**Arrange Schedule.**  
It is intended to have one of the up-land teams play against a local team here in the semi-finals, while the other Victoria club will travel. The winning teams will meet in the finals, the competition being staged on the knockout system.

Cumberland will not enter owing to the long distance to travel. Lady Smith and Nanaimo are the two best teams on the island, with the former carrying the island colors in the finals for the B. C. title against Varsity.

## BABY GIRLS ADDED TO C.P.R. SUPPORT

Roy Copas, genial manager of the C. P. R. baseball club, and Art Minnis, second baseman de luxe of the same team, are going to have added support when they perform on the diamond this year. They will be spurred on to greater efforts through the knowledge that their cheering will be anxious to hear "What daddie did."

Last week a little daughter, was welcomed into the home of Roy and last night Art got the girl tiding that a darling daughter had entered the world. Both mothers and babies are doing very well.

Roy and Art are being congratulated by their numerous friends.

## HOME TEAMS WIN BOTH GOLF GAMES

**Shaughnessy Beat Victoria's Best Team, While Colonel Jones's Team Wins Here**

While the leading golfers of the Victoria Golf Club were over in Vancouver engaging in the first half of the annual match for the Rithet Cup, a second match was played at the club, the teams captained by Col. Jones of the Victoria and Shaughnessy clubs were playing a match at the Oak Bay links.

In Vancouver Shaughnessy scored a decisive victory over Victoria, but at the local links Victoria obtained a well-deserved win. The score in the local match was 21 to 15, in favor of the Victoria team. The Shaughnessy team succeeded in winning all but two of the games.

Mr. Lay, president of the Shaughnessy Club, and Col. Jones, president of the Victoria Club, captained the teams in the local match. The scores with the Victoria players named first were as follows:

## District Governing Board to Meet To-morrow Night to Consider Matter

In order to consider arrangements for the play-off for the soccer championship of Vancouver Island a meeting of the district governing board of the B. C. F. A. has been called by Alex Peden for to-morrow evening at 7.30 o'clock in the Veterans of France clubrooms.

James Adam, of this city, was in Nanaimo over the week-end and took up certain matters pertaining to the play-off with football folks there.

It is planned to have two Victoria teams and one from Ladysmith and another from Nanaimo play for the title. If more than two Victoria teams wish to enter it is possible that a knockout series will be arranged here, and the two winning teams will meet in the play-off. It is expected that the Wests will win one of the two berths, while the other may be made up of all-stars.

**Arrange Schedule.**

## SAANICH THISTLES WILL CHAMPIONSHIP

**Defeat Oaklands 5-1 and Will Meet Vancouver Champions for B. C. Title**

The Saanich Thistles earned the right to play-off with the junior champions of Vancouver for the O. B. Allan Cup, representative of the Junior football championship of British Columbia, when they defeated the Oaklands eleven 5-1 on Saturday afternoon at the Royal Athletic Park.

The winners had a decided advantage in every phase of the game, their superior team playing and safe kicking running the Oaklands team off their feet.

In the first half the Saanich boys were successful in finding the net for three tallies while their opponents only managed to put the ball between the posts for a lone goal. The Thistles' first goal came as the result of a miscalculation by one of the opposing backs and McCallum booted the ball into the net. Ewing then scored on a long shot and Compton duplicated the trick a few minutes later. Oaklands' one and only goal came near to half-time when Bates scored on a long drive.

In the second half the Saanich lads had still the better of the play and Ewing scored his second goal after ten minutes of play, while McCallum scored on a long shot. A few minutes later, this ended the match and the final whistle blew with the Thistles prevailing.

The game was refereed by E. R. Lock and the teams were as follows:—Saanich Thistles—Hagan, Mann, Shanks, Miller, Crowe, P. Carey, Gordon, Jeffrey, McCallum, Ewing and Minna.

Oaklands—Bentley, Campbell, Bates, Kay, Williams, Tooby, George, King, Essler, Robinson and Woods.

**MABEL NORMAND**  
IN ROYAL PICTURE

Will Be Starred in "Suzanna,"  
Story of Early California

An all-star cast, including some of the most prominent artists of both screen and stage, interpret Mack Sennett's latest comedy-dramatic production, "Suzanna," which opens at the Royal today.

The list of players includes, besides Mabel Normand, star of the production, whose wonderful performance in previous Sennett successes, will never be forgotten, Walter McGrail, leading man, Winifred Bryson, Leon Barry, George Nichols, Eric Mayne, Carl Stockdale, George Cooper, Eileen Percy, and Len Port.

The story centres about two girls who were separated at birth, and who, shortly after their birth had been cunningly transposed to each other's home. They grew up to young womanhood never doubting for a moment they were not born as they were raised, the daughter of a wealthy old

Spanish Don, and the other a daughter of one of the servants—a peon. As was the custom those days, the old Don would choose a wife for their son. So it happens in "Suzanna," although the son, Walter McGrail, insists on doing his own choosing and declares his love for the little peon girl much to the surprise and consternation of both parents.

The plot is subtly worked to a climax when the servant who has made the switch in babies at their birth, can not ease his troubled conscience until he divulges his long-kept secret and the peon girl is restored to her rightful standing, while his own daughter is removed from the pedestal on which she had been placed while promenading as the wealthy heiress.

The picture is fast, interesting and beautifully realistic. Mabel Normand was never better—and it is doubtful if she ever will be, for in "Suzanna," her work is faultless.

## "THE FLIRT" TO COME TO CAPITOL

Booth Tarkington's Masterpiece Will Be Presented This Week

Priscilla Dean, Herbert Rawlinson, Gypsy Walton, Frank Mayo, Reginald Denny, Ed "Foot" Gibson, Len Chaney and a few other stars of the film world, together with officials of Universal Pictures Corporation, settled down in their seats in the private theatre of Universal City for the initial showing of "The Flirt," Booth Tarkington's famous masterpiece.

Carl Laemmle, president of Universal, had requested as critical an audience as possible, and he certainly had one gathered together. Just before the picture started he requested that they write down on unsigned slips just what they thought was wrong with the picture. To those in the know "professional jealousy" is more than a mere phrase, so it was hardly to be expected that this picture which boasted a cast of all-star calibre was going to get away without a slight blemish.

Realism followed real until "Priscilla" flashed on the screen. A hurried scratching on pads which were passed on to Mr. Laemmle, who read them, looked at his audience, smiled, and dictated the following wire to New York:

"Release 'The Flirt' exactly as it stands. Unanimous opinion of committee here that it is perfect without a foot of film to be trimmed. The first picture that ever passed such a test."

This is the Universal Jewel that is now being shown at the Capitol Theatre. It is a picture that will appeal to every member of the family, and one that will be thoroughly enjoyed because it tells about the kind of folks we all know.

## 'GRUMPY' ON SCREEN AT THE DOMINION

Famous Play Will Be Pictured With Leading Stars

Smashing all screen records for speed, William de Mille produced his latest Paramount picture, "Grumpy," featuring Theodore Roberts, May McAvoy and Conrad Nagel, in twenty working days. But in doing this, Mr. de Mille established another record—namely, that "Grumpy" is one of the most remarkably strong photoplays ever produced by this master director.

The greatest number of players appearing in a single scene is five. Opposed to this, it is doubtful if other scenes were ever made containing more dramatic action, more mystery and more suspense.

Only three sets were used in "Grumpy," which comes to the Dominion Theatre all this week. They were most luxurious, however, and were of the new unit-set system, which has been successfully introduced by Mr. de Mille. Instead of having one room of a house for an entire set, for example, Mr. de Mille built an entire house; thus did he combine several acts in one.

Every scene was shot inside the studio. One of the three big sets built inside the studio, which has been successfully introduced by Mr. de Mille, was a garden, actually growing in the studio and had to be mowed.

In making "Grumpy" for Paramount, Mr. de Mille brought to the screen one of the best character pictures ever photographed. The story has mystery, romance, thrills and some of the finest comedy ever injected into a screen play. The cast, besides the featured players—Theodore Roberts, May McAvoy and Conrad Nagel—includes Casson Ferguson, Bertram Johns, Bernice Frank, Charles Ogle, Robert Bolander and Charles French.

## ALL TO LAUGH IN 'THREE LIVE GHOSTS'

One of Most Humorous Recent Comedies at Columbia

The Britisher's failure to understand American slang is a difficulty which faces picture production in England. As the Britisher's assistant-director, George Fitzmaurice, Paramount producer, was looking over the script of "Three Live Ghosts," which is now showing at the Columbia Theatre, with a view of giving the property-man his instructions when he came upon the direction, "Enter Old Sweet with a beautiful bun."

His next note of the item with the result that on the following morning—a particularly fine sample of the confectioner's art—was prominently featured amongst the day's props.

Mr. Fitzmaurice's amazement on being unexpectedly confronted with a display of cream buns was so genuine that his assistant was not slow in grasping that there had been some mistake. It was explained to him that in America there were buns and buns, and that the bun in the script was not the kind you eat.

## TWELFTH CENTURY SHOWN ON SCREEN

Douglas Fairbanks in "Robin Hood" Coming to Capitol

Mankind owes a great deal to the power of motion pictures for taking one back through the vista of years bygone and showing how things were when "you were a tadpole and I was a fish."

Now comes Douglas Fairbanks and takes folks back eight hundred years and reveals to them how things looked and how people acted when chivalry was at its zenith. He accomplished this notably in his latest United Artists production, "Douglas Fairbanks in Robin Hood," which critics pronounce the greatest motion picture ever made, and which is coming next week to the Capitol.

The joys and sorrows of the stirring twelfth century in England have been lived over again in this modern day before the camera and the portrayal is deemed absolutely accurate, this whole production being based on every fact available in all the records extant.

The castle of the Norman period, surrounded by the inevitable deep moat, comes to the screen as the result of the consummate skill of American engineers, architects, artists and artisans and it is unquestionably a perfect replica of the centre of kingly activity of eight hundred years ago. Perhaps the most interesting single feature of this castle is the tremendous drawbridge, which, when raised, makes the big structure inaccessible, thanks to the depth and width of the moat. This drawbridge is raised and lowered with precision when needed and it serves to support many mounted and unmounted soldiers and knights in numerous dashing charges in and out of the building.

Realism abounds everywhere inside and outside this castle. For instance, the moat is filled with beautiful water lilies and live bullfrogs. Among the

interior is a banquet hall covering more space than the concourse in the Pennsylvania Railway Terminal in New York City. The floor in this banquet hall is composed of large concrete, varicolored blocks said to be exact duplicates of the material and style in vogue those eight hundred years ago. All the goldware used for banquets in the "Douglas Fairbanks in Robin Hood" picture was patterned faithfully after the specimens now in various museums.

The knights or warriors of those days, in storming a castle, did not give up their lives beside their flag-staff or color-standard. The flagstaff used by Mr. Fairbanks was fashioned after one used by King Richard. Its total weight was three hundred pounds. During the many months in which the Pickford-Fairbanks Studios at Hollywood were given over to the filming of this epochal photoplay, the whole place was constantly a maze of spears. About two thousand spears and an equal number of swords were used and there were five hundred daggers besides. All of these weapons were hand-made and were exact copies of the very instruments of warfare which made the lighter of the Twelfth Century so formidable.

and his last quartettes, those which number from his Opus 127 to Opus 135 are substantial proof of this.

Thus it is easily understandable why four idealists such as the members of the Flonzaley Quartette should be willing to forego all thoughts of personal aggrandizement for the sake of the purely artistic joy which they derive from their self-imposed mission of furthering the cause of chamber music.

Nineteen years together, that will be the record of the Flonzaley Quartette at the end of their 1922-1923 season, save for the viola player Louis Bailly, who joined the quartette in 1917. A record to be proud of. Is it any wonder that to-day the Quartette is reckoned the foremost of its time? Twenty years of intimate musical communion. One can understand why "they play more like angels than men" as James Gibbons Huneker so aptly put it.

This quartette will be presented by Mrs. Ricardo, at the Royal Victoria Theatre, on Monday, April 23.

## MUSICAL PROGRAMME FOR MUSIC LOVERS' NIGHT AT ROYAL

The musical programme that will be rendered for music-lovers' night at the Royal Victoria Theatre to-night has been carefully selected to appeal to all. This will, of course, be in addition to the feature picture, which is Mabel Normand in "Suzanna." The following are some of the numbers which will be rendered during the evening:

Overture—"Oberon"..... Weber  
Serenade—"La Paloma"..... Yradier  
"Spanish Dance"..... Moszkowski  
Waltz—"España"..... Waldteufel  
Fox Trot—"Harold"..... Roberts

In addition to these numbers the programme will also include a number of well-known selections that should appeal to all.

## WILL BE HERE EARLY IN MAY

"The Old Dumbbells" in "Full o' Pep" at Royal

During their recent tour of the eastern provinces, the "Old Dumbbells" have established a record even greater than with "Bluff, Bling, Bang" or the "Dumbbells Revue of 1922," their two past productions, for in every city and town they visited seats were sold out away in advance of the opening, and in many places large numbers were unable to gain admittance to the theatre at all.

This world famous company of soldier artists will appear at the Royal Victoria, May 7-8-9, with their splendid new revue "Full o' Pep" which is declared to be the best of all Dumbbell shows, and which the boys are operating entirely themselves. Only such old members of the organization who have worked together steadily since 1915 could write arranges, design and work out such a wonderful programme of fun and variety as the "Old Dumbbells" are bringing us this season. Among the unique new offerings which have already become very popular, is the five-klunk sketch "Billeted in a Barn" with "Red" Newman and company. This number from the opening to the very close. The Dumbbells Entertainers, that skit which became so popular on previous occasions, is again going strong with Jack McLaren in his old role of "Scotty" and "Red" Newman as Strike Me Pink.

There are 22 mammoth new surprises in "Full o' Pep" including several magnificent concerted numbers, dances, sketches, single and double acts, musical numbers and every form of entertainment imaginable.

**THE FLIRT**

She was a liar (and beautiful)  
She was a hypocrite (and kissable)  
She was a tyrant (and adorable)  
She was a cheat (and bewitching)

Yet no one lifted a hand against her—

**WHY?**

"THE FLIRT" is such a story as Booth Tarkington has always loved to write—full of dramatic situations, irresistible humor, and just enough pathos now and then to arouse the softer emotions. No one knows life as Tarkington knows it, no one can depict it more graphically.

I EARNESTLY advise everybody in this city to see "THE FLIRT" with its remarkable cast and excellent production. You will remember it long after you have forgotten all other pictures.

FUNNIER THAN ALF'S BUTTON

Brand New Print Just Arrived From London Studio

This is joy week at the Columbia. Forget your troubles and see London, England in all its beauty, wealth and fun on the screen.

### LONDON SCENES SHOWN

To see "Three Live Ghosts" is tantamount to making a sight-seeing tour of London. Here are some of the landmarks shown:

The Limehouse quarter made famous by Thomas Burke's stories showing the real Limehouse as well as the Limehouse wharf and vicinity. Glimpses of the mean streets contiguous to Shadwell and Poplar, and the London Tower Bridge.

One of the characters carries the spectators through Trafalgar Square showing the Nelson Column, Whitehall, Downing Street, the National Gallery, Westminster Abbey, the Albert Memorial in Hyde Park, Piccadilly Circus, the Bank of England, the Royal Exchange and the ruins of Whitechapel.

Scenes in the Chinese quarter also are shown, as well as rich country estates near London.

## MUSICAL SEASON DRAWS TO CLOSE

Three Features Have Yet to  
Be Carried Out

Now that the musical season is  
drawing to a close it is interesting  
to note how many prominent people  
have come to Victoria. Not for many  
years has Victoria had so many of  
the world's greatest artists and or-  
ganizations visit its concert plat-  
forms.

Among the remaining musical  
events to be given during the next  
few weeks the four outstanding ones  
are Theodore Dubois' "The Seven  
Words of Christ," to be rendered by  
the choir of St. Andrew's Cathedral,  
on Wednesday, April 22.—This will  
be given by request, and Father Wood  
will again conduct. Dubois a prolific  
writer, was a member of the French  
Academy, and this beautiful work  
was written in 1867 specially by him  
for the Good Friday services. The  
repetition of this inspirational sacred  
work will prove of appealing interest  
to all lovers of oratorio or cantata.  
The coming of the London String  
Quartet a few days ago is sure to  
open up strong desires by those who  
were fortunate enough, to hear this  
splendid string ensemble to welcome  
the appearance of the famous Flon-  
naley String Quartette, who will play  
here on April 23. The Jackson Hanby  
choir will render Mendelssohn's sub-  
lime oratorio "Elijah" on May at  
First Church. This well-known or-  
ganization, consisting of over one  
hundred voices gave Handel's "Mes-  
siah" last December. And in the  
same month, Monday, May 28, per-  
haps the greatest musical event of  
the season will be the visit of the  
famous Minneapolis Symphony Or-  
chestra, under its new conductor,  
Henri Verbrughe, in two pro-  
grammes a matinee and an evening at  
the Royal Victoria Theatre. This  
superb orchestra is now on its  
twenty-third tour, and is giving some  
remarkable performances.

## 'VARSITY PLAYERS CLUB TO APPEAR

Shaw Comedy, "You Never  
Can Tell," on April 30

The eighth annual performance of  
the Varsity Club of the University  
of British Columbia is one of the  
most interesting events in prospect.  
On Monday, April 30, at the Royal  
Victoria Theatre under the auspices  
of Kiwanis Club in aid of the Royal  
Jubilee Hospital—Building Fund,  
these college players will present the  
witty G. B. Shaw comedy in four  
acts, "You Never Can Tell."  
This group of capable amateurs has  
won fame and recognition beyond  
that usually accorded to college per-  
formers. By intelligence and careful  
training they have deservedly won  
the confidence of the Vancouver pub-  
lic, and that of some fifteen other  
places in the Province, where the  
play goes each year on tour. Those

who saw "Mr. Pim Passes By,"  
"Sweet Lavender" or "Green Stock-  
ings" will need no urging to attend  
the performance of the Shaw play.

In the cast are three of the season-  
ed players, Betty Somerset and  
Messrs. Jack Clyne and Nell McCal-  
lum. Others playing important parts  
are Beatrice F. Johnson and Beth  
McLennan, who have appeared in  
the private performances at Christ-  
mas; Messrs. Percy Barr, Fraser  
Lester, Charles Robson and E. C.  
Chamberlain complete the cast.

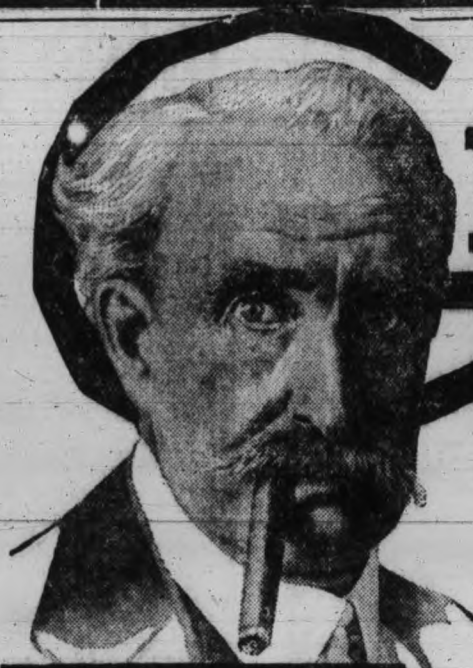

"Bernard Shaw could have been  
nothing but charmed and delighted  
with the manner in which the Play-  
ers' Club of the University of British  
Columbia interpreted his comedy  
"You Never Can Tell," before a cap-  
acitously audience last night. A buoyant  
atmosphere breathes through every  
incident of what its author calls this  
"Pleasant Play" and the students of  
the University caught that spirit to a  
nicety. The appreciation of the  
audience was expressed at the close  
of the third act, when the ladies of  
the piece were deluged with flowers.  
Opinion was unanimous that with the  
eighth annual performance the Play-  
ers' Club is destined to make its  
greatest success."

The famous story of

anew for 20th  
century eyes. The  
splendid age of  
chivalry and ro-  
mance brought

and presented with  
the magnificent  
pompe and pageantry  
of medieval  
England.

## TIME EXTENDED FOR MUSIC CONTEST

B. C. Musical Festival Will Be  
Staged May 29

While Saturday, April 14 was set as  
the official closing date for entries in  
the competition of the B. C. Musical  
Festival to be held, May 29 to June 2,  
the committee wish to point out that  
in order to accommodate out-of-town  
entrants who may have been delayed  
in securing the test selections, the lists  
will be kept open for another two  
weeks and will be closed finally on  
April 27 to permit the programme to be  
printed.

Owing to the difficulty experienced  
in securing the vocal number selected  
for the juvenile under 15 years of age,  
this number has been  
changed from "The Gates of Yester-  
day" to "Sambucus" by Landau Ronald  
(in any key), the latter may be readily  
secured at any of the leading music  
stores. The committee wish to empha-  
size the fact that all test pieces must  
be memorized and that no private  
hearings will be permitted. An official  
accompanist will be present, but a  
competitor may bring his or her own  
accompanist.

The following trophies, medals and  
prizes will be awarded the winning  
contestants at the final concert at  
Arenas on June 2. Choral Societies,

## "My Boy was Starving to Death"

"As He Was Getting No Nourishment He Was Gradually Wasting Away."

"Here's a story which will interest every mother. Before my boy was born, I was in such delicate health that the doctor didn't think I would survive the ordeal. For weeks after he was born my life was despaired of, so I couldn't feed him and the poor little fellow was left to the care of friends. He wasn't naturally strong. No care was taken in choosing his food and his poor little stomach became so weakened that he couldn't keep anything on it. As he was getting no nourishment from his food, he was gradually wasting away. Finally, in desperation, we sent for a child specialist and he said that my boy was starving to death. He gave him some medicine and advised a certain diet. The child did improve but somehow couldn't seem to get strong. This went on for four or five years and the boy still continued weak and puny looking. He could not play like other children without having to lie down and rest. My sister who lives on a farm near the sea, said that she could fix him up if I would send him to her. While I hated being separated from him, I was ready to make any sacrifice to get him strong. He was away from me for three months and it was with feelings of great excitement that I

awaited his return as my sister had written me that I would be surprised when I saw my boy. When my sister got off the train, I could not believe that it was my own boy that she was leading by the hand. I never saw such a change in any child. He was fat and rosy and full of life with a happy smile. 'What on earth have you done to him?' I said. 'Why,' she replied, 'I simply made him live out of doors, gave him good food—and here's the real secret, I gave him three bottles of Carnol. Before he had taken half a bottle his whole appearance had changed. He got heavier, his face took on a colour and he would run round for hours at a time.' The change in my boy is the most wonderful event in my life. I am a regular 'fan' for Carnol and never lose a chance to boost it. As I write I am looking out of the window and when I see that rosy, active, healthy child running round, I cannot believe that he was once a puny, delicate boy."

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money.

## WOULD PREFER TO RESIDE HERE

Rev. Dr. C. S. Price Declares  
Himself Captivated by  
Victoria

Programme for Present Week  
Includes Two Morning  
Meetings

Rev. Dr. C. S. Price, the Evangelist would live in Victoria, if he had his choice, rather than in any other city he has ever seen. Dr. Price, it may be added, has been in every large centre of population on the continent, including Los Angeles. His preference for Victoria, which has been growing upon him ever since he came here eight days ago, was fixed so firmly by the weather of yesterday that nothing henceforth will be able to displace it. He informed the congregation at the Metropolitan Church to this effect Sunday afternoon, and thereby enhanced his reputation for wisdom.

Programme for Week.

Outlining his programme for the week, he said that on Monday night he would deliver one of the key messages of the campaign. There will be a meeting at 10 a. m. Tuesday at which cards will be given out to be signed by those who wish to be prayed for. Thursday afternoon will be particularly for older people. At 10 o'clock on Saturday there will be another morning meeting. The meeting on Saturday afternoon will be especially for sick children.

If you want grace, come and get it, was the substance of Dr. Price's Sunday afternoon message. The Apostle had referred previously to the warfare that goes on within a man between the carnal and the spiritual, with the result that he frequently gets things he doesn't really want. Paul was trying to teach that there was an experience which the Christian must have and heart enjoy which could only be gained through Christ. Paul was sorry for the Jews and would admit that their religious practices were all right as far as they went, but he would not have these practices engrafted on Christianity

nor allow them to obscure the new message of salvation.

"There is a mistaken notion," said Dr. Price, "that because we do certain things and abstain from doing certain things, our salvation is complete." This would not do. A passive morality, an intellectual assent, were not sufficient. Men should read the word of God, but he believed also in following the spiritual indications that every Christian feels. The spirit was necessary, in addition to the printed word.

**Cold Mental Allegiance.**  
Cold mental allegiance to the letter of the law will never bring salvation. This was what St. Paul meant when he said, "For I bear them record that they have a zeal of God, but not according to knowledge." No man can be saved by his own righteousness. Christ is the end of the law, for righteousness to every one that believeth. "The desires of a man's life can be transformed and when Christ comes in, the devil will go out. When this happens to a man, he will want to do the things of God. As long as a man is with Jesus, he is safe from every temptation and from every trial. Around him has been placed the protecting care of God Almighty's love. No man has been led away from the service of God to the service of the devil unless he went voluntarily."

Of course man should obey the word of God, but he should not stop there. Men should rely to a large extent on those indications of the leadership of God that come into their hearts. God has a way of leading and sustaining him, if only they will completely trust in Him.

**Christ's Mighty Power.**  
Dr. Price declared his conviction that men had hardly begun to understand the mighty power of the ministry of Christ. Unbelief and materialism had blinded men's eyes. "The power of God is placed at our disposal, and we limit that power because of lack of faith. Confidence in the Lord will not suffice. There must be complete trust in Him."

"To the man who has the vision of the healing Christ, it is one of the most glorious things you ever saw. I don't know how He does it, but He does. Why God honors me in the way He does, is more than I can imagine. 'When you get salvation you know it. To the man of spiritual vision, it is the most glorious thing in all this world.' Dr. Price, in conclusion, laid stress on 'continuous confession,' which he defined as 'confession not only by the word of your testimony but by the life you are living.'

## B. C. CONFERENCE DATE HAS BEEN SET

Will Be Held in New Westminster; Educational Problems Coming Up

The British Columbia Methodist Conference will be held next month in New Westminster, opening on May 17 in Queen's Avenue Church. In that city has for many years been located the Columbian College, and owing now to the suggestion to separate theological training from secondary education, that will be an important issue of the gathering. Probably the theological training will be transferred to the denominational college affiliated with the B. C. University.

Several local pastors will be settled by the Stationing Committee, in cases where the term of the incumbent draws to a close. One of the interesting changes in the Vancouver district will be that of Rev. John Robson, formerly pastor here, who completes five years in his present charge.

The President of Conference is Rev. O. M. Sanford, and Rev. R. M. Thompson, of Chilliwack, is secretary.

Rev. Dr. Chown, general superintendent of the church, will be present and other visitors from the East include Rev. R. J. D. Simpson of the superintending department, Rev. F. C. Stephenson, secretary of the Young People's Forward Movement, Rev. Arthur Barner, secretary of Indian missions and Rev. Hugh Dobson of the department of evangelism and social service.

## VALUABLE POULTRY HINTS FROM BUREAU

Many Simple Mistakes in Egg Culture Lead to Poor Results

The Poultry Branch of the Provincial Department of Agriculture states that up to the present very poor hatching results have been reported from various parts of the province.

On one or two of the big ranches as many as two thousand infertile eggs have been taken out of the incubators at one time. The majority of the complaints chronicle the fact that whilst fertility has been fairly good many chicks have died partly formed in the shell.

**Eggs too Cool.**  
In many cases this is due to too much cooling of the eggs. The circulation of air through an incubator where the room is cool is very rapid, and therefore cooling of the eggs in addition to chilling them also tends to evaporate the egg content excessively.

Wyandotte hatching reports are slightly less favorable than those from the White Leghorns.

**Collect Often.**  
The Poultry Branch draws attention to the importance of collecting hatching eggs frequently during the day in cold weather, particularly when cold raw winds are prevalent.

Hatching eggs should be kept in a warm room and should not be kept in a cold room or on a cold porch. Egg cases, wood buckets, or baskets are much more preferable. With regard to the results from natural hatching the same mistakes appear to have been made by the majority of those setting hens early in the season during the cold weather.

**Too Large Settings.**  
During March and early April, it is inadvisable to set more than eleven or twelve eggs under a hen. In most cases, however, eggs are being set. Owing to cold weather and frequently insufficient litter used in the nest, quite a few of the eggs are chilled in hatching.

# Buy B. C. Products Campaign

Women  
Your  
Part  
In the  
Development  
Of  
British  
Columbia

In your daily buying you can give preference, WHERE QUALITY AND PRICE ARE EQUAL, first to the Products of British Columbia, second to those of Canada, and to those of the British Empire.

This will create a strong and loyal HOME MARKET for agricultural and manufactured articles

IT WILL provide work for B. C. men and women.  
IT WILL attract new settlers and capital.  
IT WILL provide money for the education of your children.  
IT WILL provide money for schools, roads and hospitals  
IT WILL reduce the individual burden of taxation.  
IT WILL build up your community.

REMEMBER, the women of British Columbia do 90 per cent. of the household buying.

REMEMBER, the prosperity of British Columbia is locked up between the kitchen doors and front porches of the homes of B. C.
